,2015 *Breaking Barriers* Brian Cafarella,2021-06-29 The fact college students often struggle in mathematics is not new

They exhibit a great deal of anxiety dislike and overall disinterest Quantitative data displaying abysmal student success rates are widely available and shared This book explores the complexity surrounding the issue of student difficulties in community college math Though much quantitative research focuses on the faculty experiences and perspectives regarding methods and practices the author puts the focus on students experiences The book presents the results of a study focused on students who struggled in mathematics Though their experiences varied they all entered community college with a great deal of disgust

and anxiety toward mathematics courses and requirements These impressions and attitudes create barriers to success However all the students eventually succeeded in fulfilling their college level mathematics requirement The author presents these students experiences prior to entering community college what led to both success and failure in their math courses and the common themes leading to success and failure Through these student responses the author assists readers in gaining a better understanding of the community college student who struggles in math and how to break students community college math barriers to success
