Some Schools C. J. Driver, 2016-11-30 CJ Jonty Driver has enjoyed a long and distinguished career in education in the UK and overseas including three headships In this poignant memoir he provides a compelling insight into school life with wisdom gained from a lifetime of learning Jonty has written an important book which should be read by all who care about schools No one else has had such a combined impact on politics schools and literature It is a remarkable story Sir Anthony Seldon recently retired Master of Wellington College Making It Happen Rebecca Stephens MBE, 2021-11-25 An inspiring and informative read Financial Times Shortlisted for the Business Book Awards 2022 In Making It Happen Rebecca Stephens argues that the successful implementation of strategy often comes down to one individual an individual with a clear unswerving commitment to the cause coupled with excellent leadership and communication skills We all have the power within us to create change and get things done even against the odds With a variety of case studies and an eclectic selection of interviewees this book champions diversity of thought and the importance of gleaning practical and actionable insights from a broad array of perspectives and experiences And making things happen is more important now than ever Virtually every organization institution and business is in desperate need of a practical and actionable strategy to find their way through these difficult times with minimal disruption According to the Project Management Institute 37% of projects fail due to the lack of defined project objectives and milestones Yet there are rare exceptions to this widespread failure to effectively strategize This book tells the stories of individuals whose extraordinary efforts and persistence have resulted in successful strategy execution Interestingly most have effected change not just to the benefit of themselves or their organization but to broader society too And most work in organizations that are typically steeped in tradition and resistant to change the civil service the UN the medical industry education financial services and long established multi national corporations Rebecca

Stephens interviews these individuals and uncovers the secrets behind their success while also drawing upon her own eclectic experiences in implementing strategy from both her corporate and journalism career and her time as a revered mountaineer Making it Happen demonstrates that it is a sense of purpose conviction and optimism combined with strong commitment and the ability to influence and persuade that leads to the successful implementation and execution of strategy
