

Jamestown Study Guide

After Christopher Columbus' voyage to the New World, some countries in Europe were in competition to start colonies in America. They wanted to increase their wealth and power by expanding their empires. England was one of these countries. In 1607, England established its first permanent settlement in British North America.

Reasons for Colonization:

England wanted to establish an American colony to:

- increase its wealth and power so it could compete with other European nations
- find silver and gold
- get raw materials
- open new markets for trade

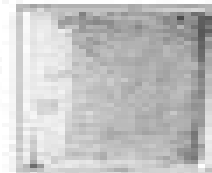

Jamestown became the first permanent English settlement in British North America. It was founded in 1607 primarily as an economic venture - a trip to make money. The settlement of Jamestown was paid for by the stockholders of the Virginia Company of London. The stockholders and the settlers who founded Jamestown wanted to make money.

Importance of the Virginia Charters:

The Virginia Company of London had to get permission from the King of England in order to establish a settlement in North America. King James I granted **charters**, or legal documents, to the Virginia Company of London for:

- establish a settlement in North America
- define the physical boundaries of the colony
- extend English rights to the settlers

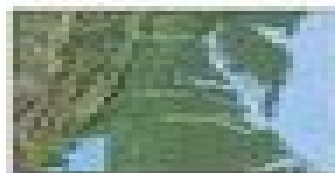

Jamestown's Location:

The English settlers chose the site for Jamestown based on several reasons:

- instructions from England told them to travel inland to find a suitable place for their colony
- it could be easily defended from attack by sea (by the Spanish)
- the water along the shore was deep enough for ships to dock
- they believed there was a good supply of fresh water

The settlers founded Jamestown on a narrow **peninsula** bordered on three sides by the James River. Today, Jamestown is located on an island in the James River because the peninsula has eroded, or washed away, over time.
