**The Grand Theater of the World** Valeria De Lucca, Christine Jeanneret, 2019-09-03 Music and space in the early modern world shaped each other in profound ways and this is particularly apparent when considering Rome a city that defined itself as the grande teatro del mondo The aim of this book is to consider music and space as fundamental elements in the performance of identity in early modern Rome Rome s unique milieu as defined by spiritual and political power as well as diplomacy and competition between aristocratic families offers an exceptionally wide array of musical spaces and practices to be explored from an interdisciplinary perspective Space is viewed as the theatrical backdrop against which to study a variety of musical practices in their functions as signifiers of social and political meanings The editors wish to go beyond the traditional distinction between music theatrical spectacles namely opera and other musical genres and practices to offer a more comprehensive perspective on the ways in which not only dramatic but also instrumental music and even the sounds of voices and objects in the streets relied on the theatrical dimension of space for their effectiveness in conveying social and political messages While most chapters deal with musical performances some focus on specific aspects of the Roman soundscape or are even intentionally silent dealing with visual arts and architecture in their performative and theatrical aspects The latter offer a perspective that creates a visual counterpoint to the ways in which music and sound shaped space

**Separation Scenes** Ann C. Christensen, 2017 This analysis of five exemplary domestic plays the anonymous Arden of Faversham and A Warning for Fair Women 1590s Thomas Heywood's A Woman Killed with Kindness 1607 Thomas Middleton's Women Beware Women ca 1613 and Walter Mountfort's The Launching of the Mary or The Seaman's Honest Wife 1632 offers a new approach to the emerging ideology of the private and public or what Ann C Christensen terms the tragedy of the separate spheres Feminist scholarship has identified the fruitful gaps between theories and practices of household government in early modern Europe while work on the global Renaissance attends to commercial expansion cross cultural encounters and colonial settlements Separation Scenes brings these critical concerns together to expose the intimate and disruptive relationships between the domestic culture and business culture of early modern England Separation Scenes argues that domestic plays make the absence of husbands for business the subject of tragedy by focusing not on where men traveled but on whom and what they left behind Elements that critics have rightly associated with domestic tragedy adultery sensational murders and the lavishly articulated operations of domestic life define this world which Christensen argues was equally shaped by the absence of husbands Her interpretations of these domestic plays invite us to historicize and further complicate the seemingly universal binary between a feminine private sphere and a masculine public sphere Separation Scenes demonstrates how domestic drama played an active dynamic and critical role in deliberating the costs of commercial travel as it disrupted domestic conduct and prompted realignments within the home

**Gaming the Stage** Gina Bloom, 2018-07-12 Rich connections between gaming and theater stretch back to the 16th and 17th centuries when England's first commercial theaters appeared right next door to gaming houses and blood sport arenas In the first book length exploration of gaming in the early modern period Gina Bloom shows that theaters succeeded in London's new entertainment marketplace largely because watching a play and playing a game were similar experiences Audiences did not just see a play they were encouraged to play the play and knowledge of gaming helped them become better theatergoers Examining dramas written for these theaters alongside evidence of analog games popular then and today

Bloom argues for games as theatrical media and theater as an interactive gaming technology. *Gaming the Stage* also introduces a new archive for game studies scenes of onstage gaming which appear at climactic moments in dramatic literature. Bloom reveals plays to be systems of information for theater spectators: games of withholding, divulging, speculating, and wagering on knowledge. Her book breaks new ground through examinations of plays such as *The Tempest*, *Arden of Faversham*, *A Woman Killed with Kindness*, and *A Game at Chess*, the histories of familiar games such as cards, backgammon, and chess, less familiar ones like *Game of the Goose*, and even a mixed reality theater videogame. *Transforming Saints*

Charlene Villaseñor Black, 2022-07-15. *Transforming Saints* explores the transformation and function of the images of holy women within wider religious, social, and political contexts of Old Spain and New Spain from the Spanish conquest to Mexican independence. The chapters here examine the rise of the cults of the lactating Madonna, St Anne, St Librada, St Mary Magdalene, and the Suffering Virgin. Concerned with holy figures presented as feminine archetypes, images that came under Inquisition scrutiny as well as with cults suspected of concealing Indigenous influences, Charlene Villaseñor Black argues that these images would come to reflect the empowerment and agency of women in viceregal Mexico. Her close analysis of the imagery additionally demonstrates artists' innovative responses to Inquisition censorship and the new artistic demands occasioned by conversion. The concerns that motivated the twenty-first century protests against Chicana artists Yolanda López in 2001 and Alma López in 2003 have a long history in the Hispanic world in the form of anxieties about the humanization of sacred female bodies and fears of Indigenous influences infiltrating Catholicism. In this context, Black also examines a number of important artists in depth, including El Greco, Murillo, Jusepe de Ribera, Pedro de Mena, Baltasar de Echave y Eibarrá, Juan Correa, Cristóbal de Villalpando, and Miguel Cabrera. *A Companion to the Global Renaissance*

England in the Age of Shakespeare Jeremy Black, 2020-03-04 A social history of Renaissance England that raises the curtain on the cultural influences that inspired Shakespeare's plays How did it feel to hear Macbeth's witches chant of double double toil and trouble at a time when magic and witchcraft were as real as anything science had to offer How were justice and forgiveness understood by the audience who first watched King Lear how were love and romance viewed by those who first saw Romeo and Juliet In England in the Age of Shakespeare Jeremy Black takes readers on a tour of life in the streets homes farms churches and palaces of the Bard's era Panning from play to audience and back again Black shows how Shakespeare's plays would have been experienced and interpreted by those who paid to see them From the dangers of travel to the indignities of everyday life in teeming London Black explores the jokes political and economic references and small asides that Shakespeare's audiences would have recognized These moments of recognition often reflected the audience's own experiences of what it was to as Hamlet says grunt and sweat under a weary life Black's clear and sweeping approach seeks to reclaim Shakespeare from the ivory tower and make the plays histories more accessible to the public for whom the plays were always intended

*Engendering Islands* Ashley M. Williard, 2021-06 In seventeenth century Antilles the violence of dispossession and enslavement was mapped onto men's and women's bodies bolstered by resignified tropes of gender repurposed concepts of disability and emerging racial discourses As colonials and ecclesiastics developed local practices and institutions particularly family formation and military force they consolidated old notions into new categories that affected all social groups In *Engendering Islands* Ashley M Williard argues that early Caribbean

reconstructions of masculinity and femininity sustained occupation slavery and nascent ideas of race In the face of historical silences Williard s close readings of archival and narrative texts reveals the words images and perspectives that reflected and produced new ideas of human difference Juridical religious and medical discourses expose the interdependence of multiple conditions male and female enslaved and free Black and white Indigenous and displaced normative and disabled in the islands claimed for the French Crown In recent years scholars have interrogated key aspects of Atlantic slavery but none have systematically approached the archive of gender particularly as it intersects with race and disability in the seventeenth century French Caribbean The constructions of masculinity and femininity embedded in this early colonial context help elucidate attendant notions of otherness and the systems of oppression they sustained Williard shows the ways gender contributed to and complicated emerging notions of racial difference that justified slavery and colonial domination thus setting the stage for centuries of French imperialism

The Industrial Turn in World History Peter Stearns, 2016-09-13 In The Industrial Turn in World History Peter N Stearns presents a concise yet far reaching overview of the worldwide shift from agricultural societies to industrial societies over the past two centuries Putting the implications for individuals and societies in global context while simultaneously considering the limits of generalization across cultures Stearns s text explores the nature of industrialization across national and regional lines Rather than portraying the Industrial Revolution as primarily a Western early 19th century development this new narrative argues that the move to industrial societies is an ongoing and truly global shift Taking a largely social and cultural approach Stearns engages with the leading edge approach of looking at emotion historically allowing readers to ask questions about the impact of industrial society on emotional experience and happiness levels This innovating framing allows for use in a variety of courses including world history economic history and more general courses on the Industrial Revolution
