Peterson, 2002-09-11 Why have people from different cultures and eras formulated myths and stories with similar structures What does this similarity tell us about the mind morality and structure of the world itself From the author of 12 Rules for Life An Antidote to Chaos comes a provocative hypothesis that explores the connection between what modern neuropsychology tells us about the brain and what rituals myths and religious stories have long narrated A cutting edge work that brings together neuropsychology cognitive science and Freudian and Jungian approaches to mythology and narrative Maps of Meaning presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind **A Companion to Atheism and Philosophy** Graham Oppy, 2019-05-06 PROSE 2020 Single Volume Reference Finalist Philosophers throughout history have debated the existence of gods but it is only in recent years that the absence of such a belief has become a significant topic of philosophical analysis in particular for philosophers of religion Although it is difficult to trace the historical contours of atheism as the lack of belief in a higher power the reasoned reflective and thoughtful rejection of theism has become commonplace in many modern intellectual circles including academic philosophy where disciplinary data indicates that a large majority of philosophers self identify as atheists As the first book of its kind to bring together a collection of writing on the philosophical aspects of atheism both historical and

contemporary the Companion to Atheism and Philosophy stages an explicit constructive and comprehensive conversation between philosophy and atheism to examine the ways in which atheist thought intersects with ideas and positions from a variety of philosophical and theological sub disciplines The Companion begins by addressing the foundational questions and lingering controversies which underpin philosophical thought about atheism exploring the implications of major developments in the history of philosophy for the modern atheistic worldview Divided into eight distinct sections essays consider a range of thinkers who were widely believed to have been atheists including David Hume Mary Wollstonecraft Karl Marx and Elizabeth Cady Stanton and survey different kinds of objections to theism and atheism including logical evidential normative and prudential Later chapters trace the relationship between atheism and metaphysics epistemology ethics and political philosophy oriented around topics such as pragmatism postmodernism freedom education violence and happiness Deftly curated and thoughtfully composed A Companion to Atheism and Philosophy is the most ambitious and authoritative account of philosophical thinking on atheism available and is a first rate resource for academics professionals and students of philosophy religious studies and theology

**Dramatic Intellectuals** Javier Pérez-Jara,Nicolás Rudas,2025-06-23 This edited volume advances meaning centered approaches to understanding the social construction of public intellectuals and their enduring influence on contemporary societies The contributors reject reductionist perspectives that depict intellectuals and their ideas as mere byproducts of broader social forces Instead the volume champions a multidimensional approach that recognizes the semi autonomy and causal power of intellectual discourses At the core of this framework is the concept of dramatic intellectuals figures who navigate collective anxieties and hopes shaping public discourse through master narratives of salvation and catastrophe utopia and apocalypse Through diverse case studies the volume identifies key features of their master stories including stark binaries the social construction of meta adversaries and meta saviors the mobilization of cultural traumas and ideological packs and the Cassandra complex Each chapter examines at least one pivotal dramatic intellectual within her cultural context exploring how these figures shape public discourse and collective imagination The volume covers a diverse range of intellectuals including Karl Marx Sigmund Freud Carl Jung Frantz Fanon Jean Paul Sartre Bertrand Russell Noam Chomsky Arne Naess Ingemar Hedenius Ayn Rand Otis Eugene Gene Ray Pedro Almod var Agust n Laje Slavoj i ek Jordan Peterson and Giorgio Agamben Beyond detailed case studies the book lays the groundwork for new research agendas in the sociology of intellectuals This book will be essential reading for scholars of cultural sociology

quietly changed by his words If you want more than surface level biography and seek a story of courage transformation and ultimate becoming this is the book for you      **Psychology of Religion** Jacob A. van Belzen,2012-01-14 In the past four decades or so the so called psychology of religion after having been deemed extinct impossible or unlikely has risen to prominence again the number of publications is rapidly growing an impressive secondary literature handbooks introductions etc is available already infrastructure has been developed a number of new journals devoted to the subject have been founded organizations have been established increasingly funding is going to the area attracting many new researchers Organizations like the American Psychological Association are now publishing in the field of psychology of religion and its Div 36 psych of rel with almost 3 000 members is already mid-sized among the APA divisions This book documents this re emergence and development      A Glitch in the Matrix: Jordan Peterson and the Intellectual Dark Web Leonard Payne,2019-10-22 This volume is a curation of material concerning the so called Intellectual Dark Web and the role of Jordan Peterson It contains biographical data on the main characters as well as appreciation and critique      The Political Right and Equality Matthew McManus,2023-07-21 McManus presents an intellectual history of the conservative and reactionary tradition stretching from Aristotle and Filmer to Alexander Dugin and Patrick Deneen Providing a comprehensive critical genealogy of the intellectual political right McManus traces its core to a nostalgia for the hierarchical cosmos of antiquarian and scholastic thinking The yearning for a shared vision of the universe where each part of reality has its place maps onto the conservative admiration for orderly political and social stratification It stamps even the more moderate forms of liberal conservatism which emerged in the aftermath of the revolutionary 18th century as the political right struggled to accept and later master first the politics of liberal capitalism and later universal suffrage In its most radical forms this nostalgia for an orderly and hierarchical existence can harden into a resentment at the perceived shallowness of liberal modernity McManus argues for those who support the project of modernity to commit themselves to better understanding the depth of the political right s critiques many of which expose uncomfortable but solvable problems with the quest for equality and freedom A critical guide to the history of conservative and reactionary thought for students and scholars of political science and political history While there are a lot of competing explanations for the contemporary rise of right wing forces Matt McManus new book suggests that it is hostility to equality that actually unites the right Zeroing in on key intellectuals and writers McManus in a sharply written text offers a compelling explanation for the disproportionate intensity of right wing grievance politics      Leading Educational Systems and Schools in Times of Disruption and Exponential Change Patrick Duignan,2020-03-30 This book provides an analysis of the impact of disruptive environments on education and closely examines national and international research based literature on how educational systems in a number of countries are successfully transforming educational delivery processes to better prepare students for an increasingly disrupted world

**On Making a Shift in the Study of Religion and Other Essays** Russell T. McCutcheon,2021-06-08 Although many

would today argue that the onetime dominance of the phenomenology of religion has receded and with it the traditional approach to studying religion as a unique and deeply felt experience that defies explanation the essays collected here take quite the opposite stand that this approach has merely been re branded and continues to characterize much work being done in the field today Offering a different way forward one that is based on experiences gained by the members of the Department of Religious Studies at the University of Alabama a program that has successfully reinvented itself over the past 20 years the book includes a variety of practical suggestions for how members of Religious Studies departments can revise their approach to studying and teaching about religion Seeing religion instead as mundane but always exemplary of basic social elements found all across cultures the volume argues that the way forward for this field lies not in the specialness of its object of study but instead the fact that thinking and acting as if something is special is itself an ordinary aspect of history and culture Making just this shift helps the scholar of religion to contribute to wide interdisciplinary conversations all across the Humanities and Social Sciences demonstrating the practical relevance of their work

Cults Stephanie Alice Baker, Eugene McLaughlin, Chris Rojek, 2024-06-27 This engaging text introduces readers to the sociology of cults Covering the history and current state of cult studies this book includes topics ranging from doomsday cults and new religious movements through to self help cults the cult of celebrity intellectuals and entrepreneurs Case studies as varied as David Koresh and the Branch Davidians the Manson family and the cult brands of Elon Musk Andrew Tate and Jordan Peterson are deployed to shed new light on cult formation in the twenty first century Amidst the rise of populist demagogues the online radicalisation of alienated individuals and the proliferation of celebrities and gurus with avid followings cult dynamics are everywhere in society Yet key urgent questions have not been clearly and concisely addressed What are cults Why do they emerge How are they established and maintained What is the future of cults and why are we so fascinated by them This book explores these questions by tracing the spectrum of cult formation historically and in today s networked media ecosystem This accessible introduction to the darkly fascinating world of cults is essential reading for academics and students of sociology social psychology religion politics business and cultural studies and anyone interested in understanding the relationship between cults and society

Moving beyond Theoria toward Theosis Justin A. Davis, 2024-06-10 Moving Beyond Theoria Towards Theosis focuses on the telos of man as understood in Plato s theoria envisioned in the allegory of the cave and early Christian reinterpretation of theoria as theosis In his famed allegory of the cave Plato maintains that real life exists beyond our base perceptions of reality and is found in the realm of ideas Theoria is eternal rest in this realm and is understood as the telos of mankind Plato s theoria underwent change as it was reinterpreted under middle Platonic and neo Platonic thought These systems incorporated a more mature idea of the divine than Plato but still minimized the material world This book explores how early Christianity inherited Plato s cosmology and terminology Theoria was also reinterpreted within the Christian context Eventually the term was abandoned for theosis Theosis is beyond theoria as it includes

contemplation of the forms as well as union with the source of the forms and the affirmation of the material realm In this volume Justin A Davis shows how the Orthodox use of icons can be key to understanding theosis The icon is a material object that connects to a higher reality and ultimately toward union with the divine Plato s cosmology is collapsed and transfigured in union with the uncreated energy of God Icons are the depiction of spiritual ascesis and the new telos of man theosis

The Different Jordan Peterson Johana Connor, Dr Jordan B Peterson is a clinical psychologist a professor of psychology at the University of Toronto and the author of the internationally bestselling book 12 Rules for Life An Antidote to Chaos which has sold over one million copies and been translated into 40 languages It was an unexpected self help book and an even more unlikely bestseller with its peculiar blending of Darwinian determinism Jungian myth interpretation and Heideggerian ontology Peterson is also known for assisting his clinical clients in managing schizophrenia anxiety obsessive compulsive disorder and depression The Canadian psychology professor had become the most contentious public intellectual of his generation He was simultaneously praised as a visionary and derided as a reactionary Depending on our perspective he had either eliminated a lot of fuzzy thinking or created a manual for the type of bitter guys Jordan B Peterson claims to be a reluctant star despite his thirst for self promotion He wants to be the expert who can answer any question and provide an accurate explanation Jordan Peterson has been hailed as the most influential public intellectual in the Western world recently

**One Rule to Live By BE GOOD** Orest Stocco,2019-07-28 Where Do We Come From What Are We Where Are We Going This is the title of the celebrated painting by French artist Paul Gauguin questions that we would all like answered but one can read all the libraries in the world and have every experience imaginable and still not know the answer to these questions U of T professor and clinical psychologist Dr Jordan B Peterson offers a way to find the answer with his global bestseller 12 Rules for Life An Antidote to Chaos but this will only take one so far on their journey to personal resolution that will answer Gauguin s three questions the rest of the way has to be negotiated by special effort which One Rule to Live By Be Good by Georgian Bay author Orest Stocco spells out by opening the door to a new way of perceiving a new way of thinking and understanding an unbelievable true story that defies comprehension a story that takes the mystery out of what the great psychologist C G Jung called the way of what is to come **Evolutionary Metaphors** David J. Moore,2019-05-31

Evolutionary Metaphors is an exploration of the many occult esoteric imaginative as well as creative speculations that have resonated around the UFO phenomenon Understanding the phenomena as an archetypal challenge to our cultural limitations the author David J Moore incorporates Colin Wilson s optimistic new existentialism with the recent studies in ufology The book presents a spiritual and philosophical foundation for the creative integration of our consciousness towards anomalous experience It is a call for what Carl Jung called active imagination and Coleridge s poetic imaginative access to the deeper streams of consciousness that which exists below the iceberg By presenting a fresh approach in the inter disciplinary spirit Moore offers a vision into human existence as well as the symbolical realities that aims to integrate our evolutionary minds

with a new understanding of reality
