Math Literacy 2014 Grade12 Scope:

Engineering in Pre-college Settings Şenay Purzer, Johannes Strobel, Monica E. Cardella, 2014 In science technology engineering and mathematics STEM education in pre college engineering is not the silent e anymore There is an accelerated interest in teaching engineering in all grade levels Structured engineering programs are emerging in schools as well as in out of school settings Over the last ten years the number of states in the US including engineering in their K 12 standards has tripled and this trend will continue to grow with the adoption of the Next Generation Science Standards The interest in pre college engineering education stems from three different motivations First from a workforce pipeline or pathway perspective researchers and practitioners are interested in understanding precursors influential and motivational factors and the progression of engineering thinking Second from a general societal perspective technological literacy and understanding of the role of engineering and technology is becoming increasingly important for the general populace and it is more imperative to foster this understanding from a younger age Third from a STEM integration and education perspective engineering processes are used as a context to teach science and math concepts This book addresses each of these motivations and the diverse means used to engage with them Designed to be a source of background and inspiration for researchers and practitioners alike this volume includes contributions on policy synthesis studies and research studies to catalyze and inform current efforts to improve pre college engineering education The book explores teacher learning and practices as well as how student learning occurs in both formal settings such as classrooms and informal settings such as homes and museums This volume also includes chapters on assessing design and creativity

Teaching and Learning Mathematics Online James P. Howard, II, John F. Beyers, 2025-06-30 Teaching and Learning Mathematics Online Second Edition continues to present meaningful and practical solutions for teaching mathematics and statistics online It focuses on the problems observed by mathematics instructors currently working in the field who strive to hone their craft and share best practices with the community The book provides a set of standard practices improving the quality of online teaching and the learning of mathematics Instructors will benefit from learning new techniques and approaches to delivering content New to the Second Edition Nine brand new chapters Reflections on the lessons of COVID 19 Explorations of new technological opportunities

Teaching for Equity in Complex Times Jamy Stillman, Lauren Anderson, 2017-04-28 In schools serving high concentrations of bilingual learners it can be especially challenging for teachers to maintain commitments to equity minded instruction while meeting the demands of new educational policies including national standards This book details how one school integrated equity pedagogy into standards based curriculum and produced exemplary levels of achievement As the authors illustrate however the schools dual commitment to bilingual education and standards based reform engendered numerous complex tensions Specifically the authors describe teachers attempts to balance demands for rigor and content coverage within their high performing school and with their diverse student population This timely book illustrates what can

happen when a schools teachers embrace equity pedagogy while navigating policy related pressures It offers a cogent counternarrative to traditional accounts of standards based reform especially for emerging bilingual students

Negotiating Learning and Identity in Higher Education Bongi Bangeni,Rochelle Kapp,2017-09-21 While access to higher education has increased globally student retention has become a major challenge This book analyses various aspects of the learning pathways of black students from a range of disciplinary backgrounds at a relatively elite English medium historically white South African university The students are part of a generation of young black people who have grown up in the new South Africa and are gaining access to higher education in unprecedented numbers Based on two longitudinal case studies *Negotiating Learning and Identity in Higher Education* makes a contribution to the debates about how to facilitate access and graduation of working class students The longitudinal perspective enabled the students participating in the research to reflect on their transition to university and the stumbling blocks they encountered in their senior years The contributors show that the school to university transition is not linear or universal Students had to negotiate multiple transitions at various times and both resist and absorb institutional disciplinary and home discourses The book describes and analyses the students ambivalence as they straddle often conflicting discourses within their disciplines within the institution between home and the institution and as they occupy multiple subject positions that are related to the boundaries of place and time Each chapter also describes the ways in which the institution supports and or hinders students progress explores the implications of its findings for models of support and addresses the issue of what constitutes meaningful access to institutional and disciplinary discourses

Investigating the Roles of School Management Teams in Curriculum Delivery Mawela, Ailwei Solomon,van Wyk, Micheal M.,Lebeloane, Lazarus,Mudau, Awelani V.,2021-06-25 The COVID 19 pandemic has introduced a new paradigm in education that has forced school management teams to re imagine their curricula delivery functions and obligations during and post COVID 19 Now there are concerns about the state to which curriculum delivery in schools is likely to become planned implemented and managed *Investigating the Roles of School Management Teams in Curriculum Delivery* improves the quality of planning implementation and management of curriculum delivery to advance the quality of teaching and learning in schools Particularly it envisages innovative strategies best practices and addresses problems in the planning implementation and delivery of curricula by school management teams Covering topics such as curriculum delivery theory curriculum delivery in planning implementation and management during and post COVID 19 curriculum delivery in assessment and alternative assessment and reimagining inclusivity in curriculum delivery this edited book is essential for departmental heads deputy principals education district officials department of basic education curriculum designers instructional designers administrators academicians university teachers researchers and post graduate students
