Why Women Over 30 Should Consider Graduate School
 Olivia Bronst, 2012-02-29 ABOUT THE BOOK Deciding whether or not you should pursue graduate studies can be a difficult decision to make particularly when you consider the financial costs and time commitments that are involved Don't kid

yourself graduate studies are nothing like what you may remember in your hey day of being an undergraduate student when you were enjoying the student lifestyle Being a graduate student is hard work that involves long hours You ll probably have very little money to spend on entertainment and at the end of it while you may have that coveted degree in your hand chances are you ll still face uncertainties regarding your future If you make the mistake of pursuing graduate studies without being clear about your reasons for doing so you run the risk of pulling out of the course later on and wasting a lot of your time and hard earned money Before pursuing graduate studies there are several things that you seriously need to consider EXCERPT FROM THE BOOK While certain careers such as becoming a doctor or a lawyer require an advanced degree many other careers offer plenty of opportunities for individuals who just have an undergraduate degree In fact in some situations if you have little or no job experience having an advanced degree can actually harm your career prospects It s important to understand the marketplace and what it values One of the easiest ways of figuring this out is to take a look at other people who are working in a career or field that you aspire to and checking out to see whether they have the qualifications that you re considering pursuing If you have any doubt whatsoever about your professional goals consider putting off graduate school and instead spend some time working on some self assessment and career planning Buy a copy to keep reading GPS for Graduate School Mark J. T. Smith,2014 This resource book consists of ten chapters written by sixteen graduate student authors and two academic professional staff members Each chapter is accompanied by a short video that dramatizes the theme along with probing discussion questions The chapter topics include seeking funding the challenges of the first year of graduate school finding a thesis advisor working with thesis committee members balancing family and graduate student life and life after graduate school Where these subjects have been treated in an academic style many times this book conveys its message through personal narratives of the challenging circumstances its graduate student authors encountered and solved It does not give its readers long lists of statistics about graduation rates or most advantageous actions for best outcomes What it does instead is provide readers with a vivid sense of the types of life experiences one can expect to encounter when undertaking a graduate degree and the opportunity to discuss these real life issues with others The book was started and developed as a project under the Midwest Crossroads Alliance for Graduate Education and the Professoriate AGEP and completed as part of the professional development activities under the Committee on Institutional Cooperation CIC AGEP
