Handbook of Attachment Jude Cassidy, Phillip R. Shaver, 1999 Pre eminent authorities in the field cover the origins and development of attachment theory biological attachment theory biological perspectives measurement of attachment across the lifespan and emerging topics and perspectives Stuck in Neutral Cathie Jo Martin, 1999-11-15 According to conventional wisdom big business wields enormous influence over America's political agenda and is responsible for the relatively limited scale of the country's social policies In Stuck in Neutral however Cathie Jo Martin challenges that view arguing that big business has limited involvement in social policy and in many instances desires broader social interventions Combining hundreds of in depth interviews with careful quantitative analysis Martin shows that there is strong support among managers for government sponsored training health work and family initiatives to enhance workers skills and productivity This support does not translate into political action surprisingly because big firms are not organized to intervene effectively Every large company has its own staff to deal with government affairs but overarching organizations for the most part lobby ineffectively for the collective interests of big business in the social realm By contrast small firms which cannot afford to lobby the government directly rely on representative associations to speak for them The unified voice of small business comes through much more clearly in policy circles than the diverse messages presented by individual corporations ensuring that the small business agenda of limited social policy prevails A vivid portrayal of the interplay between business and politics Stuck in Neutral offers a fresh take on some of the most controversial issues of our day It is a must read for anyone interested in the past present and future of the American welfare state and political economy **Child Care for Low-Income Families** Deborah A.
