The MENA Powers and the Nile Basin Initiative Simon H. Okoth,2021-10-15 This book presents the current conflict in the Middle East and North Africa over the construction of the Grand Ethiopian Renaissance Dam GERD the biggest in Africa The project explains why economic and to some extent political survival is at the core of the conflict specifically between Egypt and Ethiopia Although the problem started with insistence of no dam by Egypt and subsequently narrowed down to a filling up period of the reservoir and technical operations of the dam finding a solution agreeable to both nations has been elusive for the past eight years Ensuring water for all members in the Basin is consistent with the United Nations Sustainable Development Goal 6 particularly given the looming effects of climate change increasing population urbanization and rising consumptive water uses

The Handbook of Rationality Markus Knauff,Wolfgang Spohn,2021-12-14 The first reference on rationality that integrates accounts from psychology and philosophy covering descriptive and normative theories from both disciplines Both analytic philosophy and cognitive psychology have made dramatic advances in understanding rationality but there has been little interaction between the disciplines This volume offers the first integrated overview of the state of the art in the psychology and philosophy of rationality Written by leading experts from both disciplines The Handbook of Rationality covers the main normative and descriptive theories of rationality how people ought to think how they actually think and why we often deviate from what we can call rational It also offers insights from other fields such as artificial intelligence economics the social sciences and cognitive neuroscience The Handbook proposes a novel classification system for researchers in human rationality and it creates new connections between rationality research in philosophy psychology and other disciplines Following the basic distinction between theoretical and practical rationality the book first considers the theoretical side including normative and descriptive theories of logical probabilistic causal and defeasible reasoning It then turns to the practical side discussing topics such as decision making bounded rationality game theory deontic and legal reasoning and the relation between rationality and morality Finally it covers topics that arise in both theoretical and practical rationality including visual and spatial thinking scientific rationality how children learn to reason rationally and the connection between intelligence and rationality

Philosophy of Language in Uruguay Carlos Enrique Caorsi,Ricardo J. Navia,2024-05-15 In Europe and later in the United States the revitalization of the philosophy of language emerged from the need to address certain perplexities concerning formal disciplines and to work out certain complexities found within philosophy In Uruguay philosophy of language began with Carlos Vaz Ferreira as an analysis of the common and argumentative uses of language but then expanded to address typically philosophical questions Edited by Carlos Enrique Caorsi and Ricardo J Navia Philosophy of Language in Uruguay Language Meaning and Philosophy demonstrates the different directions in which philosophy of

language has developed in Uruguay in the last twenty years giving a representative picture of how philosophical approaches from a linguistic perspective have developed in this Latin American country Uruguayan philosophy has a very small international presence but it has long produced works within the philosophical explorations of language that are worthy of being better known The contributors dissect these explorations through epistemology linguistics argumentation and cognitive sciences to discover how philosophers of language such as Vaz Ferreira have grown to understand the complexities of language and how it affects us today
