The Economic Effects of Air Transport Market Liberalisation

Eyden Samunderu, 2024-09-19 This book rigorously examines the air transport market liberalisation process on the African continent and presents key highlights challenges and impediments to embracing an open skies market environment in Africa It focuses on the economic impact of air transport liberalisation policy constraints challenges of harmonisation and regional economic integration and its impact on air transport development employing a quantitative assessment based on the Air Transport Liberalisation Index ALI to evaluate how an open skies policy would change the competitive dynamics of air transport in Africa Adopting a two tier gravity model the book explores how demand and route networks would be impacted by the deregulation of the air transport market The book also applies a historical perspective by evaluating the initial ratification of the Yamoussoukro Declaration 1999 which acted as a catalyst for Africa s 2063 regional agenda focused on establishing the Single African Air Transport Market SAATM The book also provides a comprehensive analysis of the African Continental Free Trade Area AfCFTA exploring its multifaceted impacts on Africa s single market from economic regulatory and sustainability perspectives This includes an introduction to the AfCFTA highlighting its inception as a major step towards continental economic integration aimed at enhancing intra African trade promoting sustainable development and fostering industrial diversification It then examines the capacity and competency building of African aviation personnel Training gaps and skills are extensively evaluated to ensure that the African region is prepared for the new competitive equilibrium post SAATM The book also raises critical questions regarding the status of the African air transport market Firstly with the introduction of an open skies policy in Africa will the national flag carriers be able to compete under the new market dynamics Will the SAATM become a game changer in paving the way for the privatisation of some of Africa s poor performing airlines Will the SAATM create a competitive market and a shift in airfares How will

policymakers deal with the excessive aviation taxes fees and charges that make airfares in Africa the highest in the world
 What will the economic benefits be for signatory states that embrace the SAATM Will there be a significant growth trajectory
 in terms of air travel demand This book is intended for researchers studying air transport economics in developing markets
 graduate students with a primary focus on air transport development senior policymakers and professionals at governmental
 agencies and industry practitioners who want to expand their understanding of the dynamics shaping Africa s air transport
