Handbook of Integrative Developmental Science Michael F. Mascolo, Thomas R. Bidell, 2020-03-20 Although integrative conceptions of development have been gaining increasing interest there have been few attempts to bring together the various threads of this emerging trend The Handbook of Integrative Developmental Science seeks ways to bring together classic and contemporary theory and research in developmental psychology with an eye toward building increasingly

integrated theoretical and empirical frameworks It does so in the form of a festschrift for Kurt Fischer whose life and work have both inspired and exemplified integrative approaches to development Building upon and inspired by the comprehensive scope of Fischer's Dynamic Skill Theory this book examines what an integrated theory of psychological development might look like Bringing together the work of prominent integrative thinkers the volume begins with an examination of philosophical presuppositions of integrative approaches to development It then shows how Dynamic Skill Theory provides an example of an integrative model of development After examining the question of the nature of integrative developmental methodology the volume examines the nature of developmental change processes as well as pathways and processes in the development of psychological structures both within and between psychological domains The team of expert contributors cover a range of psychological domains including the macro and micro development of thought feeling motivation self intersubjectivity social relations personality and other integrative processes It ends with a set of prescriptions for the further elaboration of integrative developmental theory and a tribute to Kurt Fischer and his influence on developmental psychology This book will be essential reading for graduate students and researchers of developmental psychology and human development specifically developmental science

Employment Relations and

Global Governance Yvonne Rueckert, 2023-07-07 Globalisation has created many opportunities for economic development but it is also associated with rising income inequality and poverty International crises such as the international financial and economic crisis of 2008 and more recently the global health pandemic have led to a rise in unemployment and income losses for workers and a surge in the violation of workers rights At global level intergovernmental organisations including the World Bank and the IMF are influential actors and policy makers which promote the UN Sustainable Development Goals However the International Financial Institutions IFIs have been criticised for their internal political power imbalances and macroeconomic policy prescriptions based on neo liberal principles The Global Unions and their affiliates as well as the International Labour Organisation ILO regularly comment on the negative impact of the IFI s policies in regard to labour flexibilisation and the privatisation of public and social services In 2002 a formalised dialogue was established between the Global Unions and the IFIs which addresses labour social and environmental issues This dialogue takes place at three levels the country level the sector level and the headquarters level The ILO maintains its own dialogue with the IFIs but it also participates at the headquarters level dialogue between the Global Unions and the IFIs Employment Relations and Global Governance focuses on the headquarters level dialogue which can be considered as a strategic instrument that helps the Global Unions and their affiliates to exercise influence over the policies of the IFIs especially those policies which concern workers The book describes and analyses the development of the dialogue since its establishment with a particular focus on factors which promote and hinder the dialogue The book provides important insights into the real world functioning of the institutions of economic global governance and its broader impact on the world of work It is likely to be key reading for academics researchers and students studying global employment relations political economy and international organisations It will also be of interest to international and national trade unions non governmental organisations and policy makers

Individual and Social Influences on Professional Learning Hans Gruber, Christian Harteis, 2018-11-01 This book examines professional learning and relates it to the acquisition of expertise and the influence of individuals Professional learning as discussed in the book comprises all kinds of occupational domains because employment and paid work usually follow the achievement principle i e workers are expected to perform efficiently The book suggests that the perspective of expertise research is an appropriate lens to use for gaining insight in how individuals can be prepared and enabled to autonomously master the requirements of daily working life Expertise is understood as the capacity to reliably perform on an extraordinary level and the basic assumption is that experts are best prepared to successfully cope with future challenges at workplaces The book comprehensively discusses issues of expertise research and explores the nature of a successful individual and an impeded individual It proposes an integrated model of individual and social components of expertisedevelopment the i PPP model The model provides insight in and an understanding of how individuals can be enabled to develop and maintain professional expertise in the context of daily work Across all paradigms researchers policy makers employers and trade unionists agree that working conditions undergo permanent change through economic societal and technological developments Recently the digitalisation of working life

became a hot topic of scientific and societal discourses Workplaces thus provide challenges for individuals who have to be able to cope with workplace changes Accordingly new challenges emerge for an adequate understanding of learning for work as well as learning during work **Prevention of Violence Against Women and Girls** Tamsin Bradley, Janet

Gruber, 2021-09-16 Prevention of Violence Against Women and Girls argues that women and girls are vulnerable across all areas of society and that therefore a commitment to end violence against women and girls needs to be embedded into all development programmes regardless of sectorial focus This book presents an innovative framework for sensitisation and action across development programmes based on emerging best practices and lessons learnt and illustrated through a number of country contexts and a range of programmes Overall it argues that SDG 5 can only be achieved with a systematic model for mainstreaming an end to violence against women and girls no matter what the priorities of the particular development programme might be Demonstrating how the approach can be applied across contexts the authors explore cases from the energy sector health and humanitarian intervention and from countries as varied as South Sudan Myanmar Rwanda Nepal and Kenya Drawing on nearly three decades of experience working on gender health and violence against women programmes as both practitioners and academics the authors present key lessons which can be used by students researchers and practitioners alike Alternative Food Networks for Sustainable, Just, Resilient and Productive Food

Systems José Luis Vicente-Vicente, Lukas Egli, Felix Zoll, Simona Zollet, 2024-10-01 There is growing evidence that the current globalised agri food system is neither sustainable nor resilient It is responsible for around one third of the global GHG emissions and is a major driver of biodiversity loss Furthermore its structure and distribution mode do not provide food security for all and foster socio economic inequalities between different parts of the planet Consequently an increasing number of scientists and members of the civil society are demanding a radical transformation of agri food systems The creation of alternative food networks AFNs represent a possible first step towards agri food system transformation AFNs can incorporate local indigenous and innovative knowledge and bring together a diversity of actors to connect food production and consumption and create new practices and relationships around food The creation of AFNs and ultimately of Alternative Food Systems AFS should involve different actors from farmers to social movements from policymakers to scientists AFNs have the potential to contribute to a transformation towards sustainable just resilient and productive food systems but even though they have increased in numbers and organisational forms in recent years they still remain in a niche Consequently scientific evidence of their performance is still limited This research topic will contribute to a comprehensive multi scalar and critical e g including potential counter effects understanding of the current state and future potential of AFNs It will address multiple aspects ranging from social economic and environmental aspects to productivity participation and justice Moreover it will highlight the role of governance power relations and institutions as well as barriers and ways forward to promote AFNs and their role in food system transformation
