**Not Your Granny's Grammar** Patty McGee, Tim Donohue, 2025-05-20 Let's make grammar instruction exciting, relevant, and accessible for all learners. Grammar is the forgotten foundational skill. It plays a critical role in helping students become skilled readers and writers. Yet traditional approaches to teaching grammar through drills and memorization no longer resonate with students. In today's fast-paced world, students need a more engaging and meaningful way to learn grammar that connects to their real-world experiences. That's where *Not Your Granny's Grammar* comes in, offering an innovative approach to teaching grammar that is both efficient and effective. In this book, authors Patty McGee and Tim Donohue introduce Grammar Study, their classroom-tested approach that blends explicit instruction and inquiry to address the challenges and gaps in traditional grammar lessons. The book includes 40 engaging and innovative research-based lessons that are organized in flexible lesson progressions to provide teachers with easy-to-implement, fun, and learning-rich experiences for students in Grades 2-8. Guiding educators step-by-step in nurturing grammar knowledge and usage for both themselves and their students, this book offers lessons and strategies that allow students to study grammar in the context of everyday reading and writing. Emphasizes that grammar is not a static set of rules but an ever-evolving system that differs from community to community. Provides time management principles for teachers to creatively integrate meaningful grammar instruction into their literacy or ELA block. Highlights the importance of grammar in writing and clarifies the difference between spoken and written grammar. Includes a robust grammar refresher to help teachers feel more confident in their grammar knowledge, as well as an appendix showing alignment with Common Core Standards. Drawing from the science of writing, *Not Your Granny's Grammar* revolutionizes grammar instruction so teachers can help students build actionable and detailed grammar knowledge and skills that enrich their academic writing for years to come. *The McGraw-Hill Homeschooling Companion* Laura Saba, Julie Gattis, 2002-06-24 An all-inclusive guide for the parents of the 1.5 million homeschooled children. At a time when academics and instructors in each of these fields seek to answer similar questions, too few published resources recognize and address the parallels among them. In response, *Foreign Language Education in America* is an edited book with contributions that represent the diversity in foreign language education today, including perspectives from elementary, middle schools, high schools, university-level courses, summer programs, federal government and international learning. This is a practical guide to the state of the field that fills a much-needed gap for scholars, researchers, administrators and practitioners who are looking for a resource that describes effective practices across the field.

This volume brings together not simply language teacher stories but also more political stories of the problems associated with school programs and contexts. Highlighted through these stories are some of the major political issues in schools that impact language teachers' work and their students' success in sustained language study. The book is conceptually framed by the work of Clandinin and Connelly (1996) and their notion of levels of stories told by teachers about their classrooms: the secret, the sacred and the cover stories. The term professional knowledge landscape is used to indicate how teachers can critically situate their work and thereby understand it better. The collection includes the stories of two outstanding primary language educators and a story of mixed success in a rural program in teaching the local Aboriginal

language Ngarrabul There are stories of frustration with policy failures particularly in supporting the learning of Asian languages Many of the teacher narrators ask the confronting question What blocks language learning in Australia They offer the strategies which they have developed that they see making a difference Other narratives offer autoethnographic tracking of careers for example as a teacher of Latin and Classics Japanese French Spanish Russian and of teachers ongoing vigour and creativity in advocacy A number of teachers examine their own identity story for the intercultural learning which they then offer and extend in student learning Consistently expressed there is the need for teachers to take up individual responsibility while still being strongly supported by their professional community It is us who make the difference one teacher concludes Supported by a strong Foreword by Canadian scholar F Michael Connelly this ground breaking collection of narratives represents a form of social research in providing critical illustrations of the issues needing attention for national language education enhancement It is the only extended inquiry into language teaching in the context of an active policy initiative environment and the first volume to address the language education landscape through the voices of active language teachers
