Whole T. Colin Campbell, Howard Jacobson, 2013-05-07 New York Times Bestseller What happens when you eat an apple The answer is vastly more complex than you imagine Every apple contains thousands of antioxidants whose names beyond a few like vitamin C are unfamiliar to us and each of these powerful chemicals has the potential to play an important role in

supporting our health They impact thousands upon thousands of metabolic reactions inside the human body But calculating the specific influence of each of these chemicals isn't nearly sufficient to explain the effect of the apple as a whole Because almost every chemical can affect every other chemical there is an almost infinite number of possible biological consequences And that's just from an apple Nutritional science long stuck in a reductionist mindset is at the cusp of a revolution The traditional gold standard of nutrition research has been to study one chemical at a time in an attempt to determine its particular impact on the human body These sorts of studies are helpful to food companies trying to prove there is a chemical in milk or pre-packaged dinners that is good for us but they provide little insight into the complexity of what actually happens in our bodies or how those chemicals contribute to our health In The China Study T Colin Campbell alongside his son Thomas M Campbell revolutionized the way we think about our food with the evidence that a whole food plant based diet is the healthiest way to eat Now in Whole he explains the science behind that evidence the ways our current scientific paradigm ignores the fascinating complexity of the human body and why if we have such overwhelming evidence that everything we think we know about nutrition is wrong our eating habits haven't changed Whole is an eye-opening paradigm-changing journey through cutting-edge thinking on nutrition a scientific tour de force with powerful implications for our health and for our world

The China Study All-Star Collection Leanne Campbell, 2014-05-06 Following her bestselling The China Study Cookbook LeAnne Campbell brings together top names in the plant-based community to share their favorite and most delicious recipes in The China Study All Star Collection Featuring your favorite chefs and cookbooks authors The China Study All Star Collection includes foods from Happy Herbivore chef Lindsay S Nixon Del Sroufe author of the New York Times bestseller Forks Over Knives Cookbook Laura Theodore host of PBS Jazzy Vegetarian and pioneering researcher Dr John McDougall which all follow the nutrition standards set forth by The China Study Even better with delectable dishes such as Dreena Burton's Sneaky Chickpea Burgers Heather Crosby's Peppermint Chocolate Chunk Ice Cream Christy Morgan's Fiesta Quinoa Salad and Christina Ross's Daikon Mushroom Fettuccine this collection of recipes has you covered for any occasion or craving With an introduction from The China Study co-author Dr T Colin Campbell The China Study All Star Collection is the ultimate plant-based cookbook for healthful savory eating
