Smith,2016-12-01 The Oxford Handbook of Music Making and Leisure presents myriad ways for reconsidering and refocusing attention back on the rich exciting and emotionally charged ways in which people of all ages make time for making music Looking beyond the obvious this handbook asks readers to consider anew What might we see when we think of music making as leisure **The Prime of Life** Steven Mintz,2015-04-07 By drawing on 400 years of social and economic history the book presents a thoughtful and thorough guide through the life stages Library Journal Adulthood today is undergoing profound

transformations Men and women wait until their thirties to marry have children and establish full time careers occupying a prolonged period in which they are no longer adolescents but still lack the traditional emblems of adult identity People at midlife struggle to sustain relationships with friends and partners to achieve fulfilling careers to raise their children successfully and to age gracefully The Prime of Life puts today's challenges into new perspective by exploring how past generations navigated the passage to maturity Whereas adulthood once meant culturally prescribed roles and relationships the social and economic convulsions of the last sixty years have transformed it fundamentally tearing up these shared scripts and leaving adults to fashion meaning and coherence in an increasingly individualistic culture Emphasizing adulthood's joys

and fulfillments as well as its frustrations and regrets Mintz shows how cultural and historical circumstances have consistently reshaped what it means to be a grown up in contemporary society A triumph of historical writing The Spectator Mintz s message that there are many ways to wear the mantle of responsible adulthood and that the 1950s model is a mere blip on history s radar is deeply necessary and long overdue New York Times Book Review Describing the cultural economic and social changes from the Colonial era to today s world Mintz argues that neither religious nor secular middle class values are adequate responses to the new generation s problems Choice A thoughtful and strangely encouraging tour of an often difficult life stage Kirkus Reviews **Financial Capability and Asset Holding in Later Life** Margaret S.

Beirat für Familienfragen,2012-03-14 In Zeiten eines

demografischen Wandels welcher durch eine zunehmende Individualisierung sowie eine abnehmende Selbstverständlichkeit und Zuverlässigkeit familialer Bindungen charakterisiert ist bedarf das Thema der Generationenbeziehungen der besonderen Aufmerksamkeit und Zuwendung Die Sorge um den Erhalt des Gemeinwesens um die Sicherung des Humanvermögens und zentraler Fürsorge und Sozialisationsaufgaben sowie um die Sicherung der Renten verleiht diesem Thema zugleich eine bestimmte Brisanz Während bisher die Eltern Kind Beziehung im Fokus der Forschung stand nimmt dieser Band eine

Mehrgenerationenperspektive ein Er richtet seinen Blick insbesondere auf die Großeltern-Enkel-Beziehung und zeigt den speziellen Charakter sowie die große Bedeutung dieser Form der Generationenbeziehung auf. Betrachtet werden hierbei sowohl die gelebten Beziehungen innerhalb von Familien als auch außerfamiliäre Beziehungen zwischen der Großeltern- und der Enkelgeneration. Von dieser Bestandsaufnahme leitet der Band ab, wie die Potenziale dieser Generationenbeziehung in Zukunft gefördert und gestärkt werden könnten.

**Aging Literacies** Angela Crow, 2006 This book takes up the complicated question of writing faculty development and the training necessary to address shifting definitions of literate acts. It suggests the necessity of becoming more literate about how current research on aging might impact the field of rhetoric and composition studies.

Living Through Loss Nancy R. Hooyman, Betty J. Kramer, Sara Sanders, 2021-08-31 Living Through Loss provides a foundational identification of the many ways in which people experience loss over the life course from childhood to old age. It examines the interventions most effective at each phase of life, combining theory, sound clinical practice, and empirical research with insights emerging from powerful accounts of personal experience. The authors emphasize that loss and grief are universal yet highly individualized. Loss comes in many forms and can include not only a loved one's death but also divorce, adoption, living with chronic illness, caregiving, retirement, and relocation, or being abused, assaulted, or otherwise traumatized. They approach the topic from the perspective of the resilience model, which acknowledges people's capacity to find meaning in their losses and integrate grief into their lives. The book explores the varying roles of age, race, culture, sexual orientation, gender, and spirituality in responses to loss. Presenting a variety of models, approaches, and resources, Living Through Loss offers invaluable lessons that can be applied in any practice setting by a wide range of human service and health care professionals. This second edition features new and expanded content on diversity and trauma, including discussions of gun violence, police brutality, suicide, and an added focus on systemic racism.

Multiple Paths of Midlife Development Margie E. Lachman, Jacquelyn Boone James, 1997-05-15 In this collection of fifteen papers, leading researchers analyze the middle years of the lifespan, paying close attention to the many different facets of adult development. They study the various changes involving the self and others that middle-aged adults experience in the realms of work, family, and health. This book explains how the different experiences interrelate and how a better understanding of them can foster successful midlife development.

Midlife Development in the United States (MIDUS), 2004 This survey of adult management tasks was part of a larger national project to investigate the patterns, predictors, and consequences of midlife development in the areas of physical health, psychological well-being, and social responsibility. Conducted in Boston, the survey was designed to examine how adults manage tasks in three domains of life: work, family, and health. Further goals were to describe the subjective experience of goal attainment in midlife and to link it with objective measures of short-term longitudinal changes and cognitive functioning. During the national study, the Boston area was

intentionally oversampled in order to create a subset to be used for in depth study of management processes in midlife The Boston study began six months after the national study and consisted of three interviews a 30 minute phone interview followed by a 20 minute mail questionnaire Time 1 a 90 minute in person combination of cognitive tests cortisol testing photograph taking and interview Time 2 and a 30 minute phone interview Time 3 conducted at six month intervals The focus was on projects related to family work and health that participants were working on during the period of the study Each successive interview investigated participants assessments of their progress in the present recollection of six months in the past and prediction six months into the future At Time 1 participants generated a list of two important family work and health tasks then chose one of each as the most important in that domain For each of the most important tasks questions were asked about deadlines whether participants were doing tasks because they had to do them felt that they should do them or chose to do them and whether participants were doing tasks for themselves others or both All six projects were ranked according to importance and participants Cf <http://webapp.icpsr.umich.edu/cocoon/ICPSR/STUDY/03596.xml>
