### **Therapeutic Nutrition**

Eileen Behan,2006 This reference provides essential information on therapeutic nutrition and contains 135 patient education handouts that health care providers can reproduce and give to patients Included within the handouts are ones on recommended dietary allowances the latest food pyramid prediabetes glycemic index mercury and fish safety food allergy and 16 specific diets for medical conditions Each patient education handout is prefaced by an overview that offers guidelines on nutritional interventions and patient education The book also includes discussions on nutritional controversies and eating disorders and a list of additional resources The spiral binding and flip chart format enable health care providers to find and reproduce patient handouts quickly

### **Geriatric** Stephen Bartlett,Mary Marian,Douglas Taren,Myra L.

Muramoto,2012-12-06 The older population defined as those 65 years and older has been steadily increasing as a percentage of the total population since 1900 Currently it constitutes 13% of the population The United States Bureau of the Census predicts that the elderly will represent 20% of the U S population by 2030 The older population itself is getting older with greatest percentage increases in the subgroup of elderly over 85 years of age This segment of the elderly is now 28 times greater in number than in 1900 The aging process is associated with unique medical problems including declining functional capacities and physiological reserves that have spawned specialization in geriatric medicine While healthy free living elderly appear not much more at nutritional risk than the rest of the population the elderly who suffer from illness or other stress have a much higher incidence of nutritional problems than the population as a whole Elderly are also more heterogeneous than the general population resulting in a greater variation in nutritional requirements which requires a better understanding of how nutrition and health interact This brings nutritional assessment and care to the forefront of geriatric medical practice
