Being Kammu Damrong Tayanin, 2018-05-31 Combining autobiography and ethnography Damrong Tayanin examines the lifestyles customs practices and beliefs of the Kammu people by describing his own early experiences

Ritual Communication Gunter Senft, Ellen B Basso, 2020-05-15 Ritual Communication examines how people create and express meaning through verbal and non verbal ritual Ritual communication extends beyond collective religious expression It is an intrinsic part of everyday interactions ceremonies theatrical performances shamanic chants political demonstrations and rites of passage Despite being largely formulaic and repetitive ritual communication is a highly participative and self oriented process The ritual is shaped by time space and the individual body as well as by language ideologies local aesthetics contexts of use and relations among participants Ritual Communication draws on a wide range of contemporary cultures from Africa America Asia and the Pacific to present a rich and diverse study for students and scholars of anthropology sociology and sociolinguistics

The Little Book That Still Beats the Market Joel Greenblatt, 2010-09-07 In 2005 Joel Greenblatt published a book that is already considered one of the classics of finance literature In *The Little Book that Beats the Market* a New York Times bestseller with 300 000 copies in print Greenblatt explained how investors can outperform the popular market averages by simply and systematically applying a formula that seeks out good businesses when they are available at bargain prices Now with a new Introduction and Afterword for 2010 *The Little Book that Still Beats the Market* updates and expands upon the research findings from the original book Included are data and analysis covering the recent financial crisis and model performance through the end of 2009 In a straightforward and accessible style the book explores the basic principles of successful stock market investing and then reveals the author's time tested formula that makes buying above average companies at below average prices automatic Though the formula has been extensively tested and is a breakthrough in the academic and professional world Greenblatt explains it using 6th grade math plain language and humor He shows how to use his method to beat both the market and professional managers by a wide margin

You'll also learn why success eludes almost all individual and professional investors and why the formula will continue to work even after everyone knows it. While the formula may be simple, understanding why the formula works is the true key to success for investors. The book will take readers on a step by step journey so that they can learn the principles of value investing in a way that will provide them with a long term strategy that they can understand and stick with through both good and bad periods for the stock market. As the Wall Street Journal stated about the original edition, Mr. Greenblatt says his goal was to provide advice that while sophisticated could be understood and followed by his five children ages 6 to 15. They are in luck. His Little Book is one of the best, clearest guides to value investing out there.

The Dark World of Pakistani Black Magic Insar Haq, 2024-11-01. A fascinating and often surprising journey into the belief and practice of magic in Pakistan, exploring the country's myths, legends, and folklore. The supernatural and the religious intertwine to produce a unique cultural landscape where the holy and the superstitious combine inextricably, and practitioners of both white and black magic gain legitimacy and status from the incorporation of Quranic elements in their rituals, from faith healing and protection to harmful sorcery. Far from an arcane relic of times long past, the practice of magic is ubiquitous in Pakistan today and amongst its diaspora across the globe, constantly changing and adapting to new environments and influences. Neither is the popularity of magic limited to the impoverished or illiterate; belief is widespread regardless of status and education, with a resurgence in interest from younger people, perhaps disillusioned with modern society and organised religion, and seeking a return to a more natural way of life. The risks of exploitation and abuse from unprincipled charlatans are commonplace, especially since they are promoted by the media and unregulated by law, but genuine religiously legitimate practitioners also exist, and their help is sought by millions, suggesting a deep-seated human need for connection to the supernatural.

The Water Magician: Arc 1 Volume 1 Tadashi Kubou, 2024-03-14. Ryo is delighted to be reincarnated into the fantastical world of Phi, where he thinks he'll get to live a quiet life, learning to use his newfound water magic. Going with the flow here, however, means something very different. Ryo is immediately pitted against the wild lands he winds up in, and the slew of deadly monsters that call the remote subcontinent home. You'd think he'd forget about taking it easy when he's stuck fighting for his life, but lucky for Ryo, he's naturally optimistic, clever, and blessed with the hidden Eternal Youth trait. Twenty years pass in the blink of an eye, and each encounter along the way pushes him one step closer to the pinnacle of human magic. Little does he realize that's only the opening chapter of his tale. A fateful meeting soon thrusts Ryo to the forefront of history, forever changing the course of his life. Thus begins the adventures of the strongest water magician the world has ever seen, who also likes to do things at his own pace.

Sustainable Forest Management Klaus von Gadow, Timo Pukkala, Margarida Tomé, 2001-11-30.
