the Truth** Anne C. Hegerfeldt,2005 Magic realism has long been treated as a phenomenon restricted to postcolonial
literature Drawing on works from Britain Lies that Tell the Truth compellingly shows how magic realist fiction can be
produced also at what is usually considered to be the cultural centre without forfeiting the mode s postcolonial attitude and
aims A close analysis of works by Angela Carter Salman Rushdie Jeanette Winterson Robert Nye and others reveals how the
techniques of magic realism generate a complex critique of the West s rational empirical worldview from within a Western
context itself Understanding magic realism as a fictional analogue of anthropology and sociology Lies that Tell the Truth
reads the mode as a frequently humorous but at the same time critical investigation into people s attempts to make sense of
their world By laying bare the manifold strategies employed to make meaning magic realist fiction indicates that knowledge
and reality cannot be reduced to hard facts but that people s dreams and fears ideas stories and beliefs must equally be taken
