for civil society in Eastern Europe going forward *China's Transition from Communism - New Perspectives* Guoguang Wu, Helen Lansdowne, 2015-11-06 As China moved from a planned to a market economy many people expected that China's political system would similarly move from authoritarianism to democracy It is now clear however that political liberalisation does not necessarily follow economic liberalisation This book explores this apparent contradiction presenting many new perspectives and new thinking on the subject It considers the path of transition in China historically makes comparisons with other countries and examines how political culture and the political outlook in China are developing at present A key feature of the book is the fact that most of the contributors are China born Western trained scholars who bring deep knowledge and well informed views to the study **Post-Soviet Armenia** Irina Ghaplanyan, 2017-11-01 Following the collapse of the Soviet Union Armenia has struggled to establish itself with a faltering economy emigration of the intelligentsia and the weakening of civil society This book explores how a new national elite has emerged and how it has constructed a new national narrative to suit Armenia's new circumstances The book examines the importance of the Nagorno Karabakh conflict with Azerbaijan considers the impact of fraught relations with Turkey and the impact of relations with other neighbouring states including Russia and discusses the poorly developed role of the very large Armenian diaspora Overall the book provides a key overview to understanding the forces shaping all aspects of present day Armenia *The Defeat of Solidarity* David Ost, 2018-07-05 How did the fall of communism and the subsequent transition to capitalism in Eastern Europe affect the people who experienced it And how did their anger affect the quality of the democratic systems that have emerged Poland offers a particularly provocative case for it was here where workers most famously seemed to have won thanks to the role of the Solidarity trade union And yet within a few short years they had clearly lost An oppressive communist regime gave way to a capitalist society that embraced economic and political inequality leaving many workers frustrated and angry Their leaders first ignored them then began to fear them and finally tried to marginalize them In turn workers rejected their liberal leaders opening the way for right wing nationalists to take control of Solidarity Ost tells a fascinating story about the evolution of postcommunist society in Eastern Europe Informed by years of fieldwork in Polish factory towns scores of interviews with workers labor activists and politicians and an exhaustive reading of primary sources his new book gives voice to those who have not been heard But even more Ost proposes a novel theory about the role of anger in politics to show why such voices matter and how they profoundly affect political outcomes Drawing on Poland's experiences Ost describes lessons relevant to democratization throughout Eastern Europe and to democratic theory in general Markets with Bureaucratic Characteristics Yingyao Wang, 2024-05-21 Winner 2025 Sociology of Development Book Award Sociology of Development Section American Sociological Association China's breathtaking economic development has been driven by bureaucrats Even as the country transitioned away from socialist planning toward a market economy the economic bureaucracy retained a striking degree of influence and control over crafting and implementing policy Yet bureaucrats are often dismissed as

faceless and inconsequential their role neglected in favor of party leaders top down rule or bottom up initiatives Markets with Bureaucratic Characteristics offers a new account of economic policy making in China over the past four decades that reveals how bureaucrats have spurred large scale transformations from within Yingyao Wang demonstrates how competition among bureaucrats motivated by careerism has led to the emergence of new policy approaches Second tier economic bureaucrats instituted distinctive and often conflicting policy paradigms aimed at securing their standing and rewriting China's long term development plans for their own benefit Emerging from the middle levels of the bureaucracy these policy paradigms ultimately reorganized the Chinese economy and reshaped state market relations Drawing on fine grained biographical and interview data Wang traces how officials coalesced around shared career trajectories generational experiences and social networks to create new alliances and rivalries Shedding new light on the making and trajectory of China's ambitious economic reforms this book also provides keen sociological insight into the relations among bureaucracy states and markets

The Political Economy of Hungarian Authoritarian Populism Samuel Rogers, 2024-08-30 This book emphasises the importance of state business relations and external capital for structuring and strengthening authoritarian populism in Hungary It argues these capitalist relations are crucial to understanding the economic aspects of this ideology which has developed in the country since 2010 The book investigates both internal and external legs of the Hungarian political economy First how a politically loyal national capital owning class has subsumed domestic business Second the government's operationalisation of new inward transnational capital inflows especially from China and Russia to finance large scale infrastructure projects which complement extant investment particularly from Germany Together these developments have strengthened the hegemonic nature of Hungarian Authoritarian Populism helping the government to continued electoral success This model of governance is attractive to similar ideological expressions in the region and beyond who look for an example to emulate The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
