Computer-Supported Collaborative Decision-Making Florin Gheorghe Filip,Constantin-Bălă Zamfirescu,Cristian Ciurea,2016-10-27 This is a book about how management and control decisions are made by persons who collaborate and possibly use the support of an information system The decision is the result of human conscious activities aiming at choosing a course of action for attaining a certain objective or a set of objectives The act of collaboration implies that several entities who work together and share responsibilities to jointly plan implement and evaluate a program of activities to achieve the common goals The book is intended to present a balanced view of the domain to include both well established concepts and a selection of new results in the domains of methods and key technologies It is meant to answer several questions such as a How are evolving the business models towards the ever more collaborative schemes b What is the role of the decision maker in the new context c What are the basic attributes and trends in the domain of decision supporting information systems d Which are the basic methods to aggregate the individual preferences e What is the impact of modern information and communication technologies on the design and usage of decision support systems for groups of people *Advanced Risk Analysis in Engineering Enterprise Systems* Cesar Ariel Pinto,Paul R. Garvey,2016-04-19 Since the emerging discipline of engineering enterprise systems extends traditional systems engineering to develop webs of systems and systems of systems the engineering management and management science communities need new approaches for analyzing and managing risk in engineering enterprise systems *Advanced Risk Analysis in Engineering Enterpri* **After Lisbon: National Parliaments in the European Union** Katrin Auel,Thomas Christiansen,2017-10-02 The role of national parliaments in EU matters has become an important subject in the debate over the democratic legitimacy of European Union decision making Strengthening parliamentary scrutiny and participation rights at both the domestic and the European level is often seen as an effective measure to address the perceived democratic deficit of the EU the reason for affording them a prominent place in the newly introduced Provisions on Democratic Principles of the Union in particular Article 12 TEU Whether this aim can be met however depends crucially on the degree to which and the manner in which national parliaments actually make use of their institutional rights This volume therefore aims at providing a comprehensive overview of the activities of national parliaments in the post Lisbon Treaty era This includes the classic scrutiny of EU legislation but also parliamentary involvement in EU foreign policy the use of new parliamentary participation rights of the Lisbon Treaty Early Warning

System their role regarding the EU's response to the Eurozone crisis and the so far under researched role of parliamentary administrators in scrutiny processes This book was originally published as a special issue of West European Politics

Location Theory and Decision Analysis Yupo Chan, 2011-08-26 Employing state of the art quantitative models and case studies *Location Theory and Decision Analysis* provides the methodologies behind the siting of such facilities as transportation terminals warehouses housing landfills state parks and industrial plants Through its extensive methodological review the book serves as a primer for more advanced texts on spatial analysis including the monograph on *Location Transport and Land Use* by the same author Given the rapid changes over the last decade the Second Edition includes new analytic contributions as well as software survey of analytics and spatial information technology While the First Edition served the professional community well the Second Edition has substantially expanded its emphasis for classroom use of the volume Extensive pedagogic materials have been added going from the fundamental principles to open ended exercises including solutions to selected problems The text is of value to engineering and business programs that offer courses in Decision and Risk Analysis Muticriteria Decision Making and Facility Location and Layout It should also be of interest to public policy programs that use geographic Information Systems and satellite imagery to support their analyses

A Decision Framework for Managing the Spirit Lake and Toutle River System at Mount St. Helens National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Environmental Change and Society, Division on Earth and Life Studies, Water Science and Technology Board, Board on Earth Sciences and Resources, Committee on Geological and Geotechnical Engineering, Committee on Long-Term Management of the Spirit Lake/Toutle River System in Southwest Washington, 2018-03-29 The 1980 eruption of Mount St Helens in southwest Washington State radically changed the physical and socio economic landscapes of the region The eruption destroyed the summit of the volcano sending large amounts of debris into the North Fork Toutle River and blocking the sole means of drainage from Spirit Lake 4 miles north of Mount St Helens As a result of the blockage rising lake levels could cause failure of the debris blockage putting the downstream population of approximately 50 000 at risk of catastrophic flooding and mud flows Further continued transport of sediment to the river from volcanic debris deposits surrounding the mountain reduces the flood carrying capacity of downstream river channels and leaves the population vulnerable to chronic flooding The legacy of the 1980 eruption and the prospect of future volcanic seismic and flood events mean that risk management in the Spirit Lake Toutle River system will be challenging for decades to come This report offers a decision framework to support the long term management of risks related to the Spirit Lake and Toutle River system in light of the different regional economic cultural and social priorities and the respective roles of federal tribal state and local authorities as well as other entities and groups in the region It also considers the history and adequacy of characterization monitoring and management associated with the Spirit Lake debris blockage and outflow tunnel other efforts to control transport of water and sediment from the

1980 and later eruptions and suggests additional information needed to support implementation of the recommended decision framework Mass Media and Political Decision-Making Nino Landerer,2016-10-20 To what extent have political decision making processes become mediatized Based on this question the author analyzes media coverage and parliamentary actors MPs strategies and perceptions in three conflicted decision making processes in Switzerland Mediatization of politics refers to behavioral changes and adaptations of political actors institutions and processes that are related to mass media According to some scholars mediatization may lead to politics of immediacy conflict drama and personalization thereby challenging established institutions and processes in liberal democracies The quantitative and qualitative analyses of MPs strategies and perceptions provide new insights into how political actors may self mediatize in the advent of globalization and polarization Overall the book adopts an actor centric approach and shows that mediatization of politics is not a fate but a strategic choice **Decision Support Systems** Ger Devlin,2010-03-01 This book by In Tech publishing helps the reader

understand the power of informed decision making by covering a broad range of DSS Decision Support Systems applications in the fields of medical environmental transport and business The expertise of the chapter writers spans an equally extensive spectrum of researchers from around the globe including universities in Canada Mexico Brazil and the United States to institutes and universities in Italy Germany Poland France United Kingdom Romania Turkey and Ireland to as far east as Malaysia and Singapore and as far north as Finland Decision Support Systems are not a new technology but they have evolved and developed with the ever demanding necessity to analyse a large number of options for decision makers DM for specific situations where there is an increasing level of uncertainty about the problem at hand and where there is a high impact relative to the correct decisions to be made DSS s offer decision makers a more stable solution to solving the semi structured and unstructured problem This is exactly what the reader will see in this book *Effective Risk Management*
