Making Innovation Pay Bruce Berman, 2006-06-12 Many companies and executives talk about patents but few can demonstrate significant returns from them Who are the elite companies and managers that have created wealth and profit from IP rights and how have they done it What do they advise others to do to achieve higher profit margins better returns on costly R D and increased shareholder value This reader friendly book focuses on ten companies and managers advisors who have successfully implemented wealth generating patent programs and shows you how you can do it too *Built to Thrive: Using Innovation to Make Your Mark in a Connected World* Jay van Zyl, 2011-11-12 Built to Thrive is about unpacking the drivers that I have noticed in the landscape that do not yet have a place in our existing vocabulary It is about ceasing to ignore the signs and beginning to embrace the changes that are becoming more tangible with every day that passes It is about recognizing the amplified importance of the human as a social being in this dawning age of transparency and systemic activity The individual becomes the collective as we move into a sphere of shared value creation ideation and knowledge dissemination Existing in this new business landscape is not about eliminating the competition but rather working together in a bid to share resources and expand far beyond what we could ever hope to achieve as individual organizations Through Built to Thrive I hope to open your mind and introduce you to a way of thinking that will fundamentally shift your views and may provide a lifeline in a world where the new school will rule
