both research animals and strategic pawns in a cosmic game whose madness knows no end a game of ancient vengeance between the powers who seeded the galaxy with life and the Forerunners who expect to inherit their sacred Mantle of Responsibility to all living things In the company of a young girl and an old man Chakas begins an epic journey across a lost and damaged Halo ringworld in search of a way home an explanation for the warrior spirits rising up within and the reason for the Forerunner Librarian s tampering with human destiny Their travels will take them into the domain of a powerful and monstrous intelligence known as the Captive by Forerunners and the Primordial by ancient human warriors this being may not only control the fate of Chakas Riser and the rest of humanity but of all sentient life across the galaxy **Halo:**

Evolutions Various,2019-01-01 The thrilling short story collection featuring Jeff VanderMeer Karen Traviss and Eric Nylund part of the expanded universe based on the New York Times bestselling video game series Halo When humanity expanded beyond the safety of Earth to new stars and horizons it never dreamed what dangers would be encounter there When the theocratic alien juggernaut known as the Covenant declared war upon the fragile human empire millions of lives were lost but millions of heroes also rose to the challenge In such a far reaching conflict not many tales of the brave have a chance to become legend This collection of eleven stories dives into the depths of the vast Halo universe not only from the perspective of those who fought and died to save humanity but also from those who vowed to wipe it out of existence **Halo: Cryptum**

Greg Bear,2019-01-01 The first novel in the Forerunner Saga trilogy by science fiction legend Greg Bear set in the Halo universe and based on the New York Times bestselling video game series One hundred thousand years ago the galaxy was populated by a great variety of beings But one species eons beyond all others in both technology and knowledge achieved dominance They ruled in peace but met opposition with quick and brutal effectiveness They were the Forerunners the keepers of the Mantle of Responsibility the next stage of life in the Universe s Living Time And then they vanished This is their story **The Forbidden Body** Douglas E. Cowan,2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with

horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim
