Adult Development and Learning Alan B. Knox, 1977-04-25 *Handbook of Adult Development* Jack Demick, Carrie Andreoletti, 2012-12-06 This volume is an outgrowth of contemporary research on development over the adult lifespan which by now has burgeoned and developed both nationally and internationally However for us the impetus to be involved in this area was spawned and nurtured by our initial association with the Society for Research in Adult Development SRAD with its origins some 15 years ago by Michael Commons and his associates in Cambridge Massachusetts Through the good will and support of this society we also became and are still heavily involved with the Journal of Adult Development and the Kluwer Plenum Monograph Series on Adult Development and Aging of which this volume is a companion Many of the contributions in the volume are from SRAD members who consistently adhere to a focus on positive adult development Their chapters have been complemented by pieces from other researchers who have adopted more mainstream approaches to adult development and aging Regardless of the particular approach and or focus of the chapter all the work reported herein supports the relatively recent idea that development is not restricted to children and adolescents but continues throughout the adult lifespan in ways that we never envisioned some 20 years ago Thus the volume represents state of the art theory research and practice on adult development which has the potential to occupy us all for some time to come

Nanton, Mary V. Alfred, 2009-07-20 Fostering Transformative Learning is about teaching for change It is not an approach to be taken lightly arbitrarily or without much thought Many would argue that it requires intentional action a willingness to take personal risk a genuine concern for the learners betterment and the wherewithal to draw on a variety of methods and techniques that help create a classroom environment that encourages and supports personal growth What makes the work of transformative learning even more difficult is the lack of clear signposts or guidelines that teachers can follow when they try to teach for change There is now a need to return to the classroom and look through the lens of those who have been engaged in the practice of fostering transformative learning Book Jacket
