## **Handbook Of Research And Policy In Art Education:**

Handbook of Research and Policy in Art Education Elliot W. Eisner, Michael D. Day, 2004-04-12 This work provides an overview of the progress that has characterized the field of research and policy in art education. It profiles and integrates history, policy, learning, curriculum, and instruction, assessment, and competing perspectives. *Handbook of Research and Policy in Art Education* Elliot W. Eisner, Michael D. Day, 2004 The Handbook of Research and Policy in Art Education marks a milestone in the field of art education. Sponsored by the National Art Education Association and assembled by an internationally known group of art educators, this 36 chapter handbook provides an overview of the remarkable progress that has characterized this field in recent decades. Organized into six sections, it profiles and integrates the following elements of this rapidly emerging field: history, policy, learning, curriculum, and instruction, assessment, and competing perspectives. Because the scholarly foundations of art education are relatively new and loosely coupled, this handbook provides researchers, students, and policymakers both inside and outside the field an invaluable snapshot of its current boundaries and rapidly growing content. In a nutshell, it provides much needed definition and intellectual respectability to a field that as recently as 1960 was more firmly rooted in the world of arts and crafts than in scholarly research. *International Handbook of Research in Arts Education* Liora Bresler, 2007-03-05 Providing a distillation of knowledge in the various disciplines of arts education: dance, drama, music, literature, and poetry, and visual arts, this essential handbook synthesizes existing research. Literature reflects on the past and contributes to shaping the future of the respective and integrated disciplines of arts education. While research can at times seem distant from practice, the Handbook aims to maintain connection with the live practice of art and of education, capturing the vibrancy and best thinking in the field of theory and practice. The Handbook is organized into 13 sections, each focusing on a major area or issue in arts education research. **International Handbook of Research in Arts Education** Liora Bresler, 2007-09-04 Providing a distillation of knowledge in the various disciplines of arts education: dance, drama, music, literature, and poetry, and visual arts, the Handbook synthesizes existing research. Literature helps define the past and contributes to shaping the substantive and methodological future of the respective and integrated disciplines of arts education. While research can at times seem distant from practice, the Handbook aims to maintain connection with the lived practice of art and of education, capturing the vibrancy and best thinking in the field of theory and practice. The Handbook is organized into 13 sections, each centering on a major area or issue in arts education research. These areas include: History of arts education, curriculum, evaluation, cultural centers, appreciation, composition, informal learning, child culture, creativity, the body, spirituality, and technology. The individual chapters address cross-cultural research related to the central theme of the section from the perspectives of the particular arts discipline. Interludes provide reflective thoughts on the theme. **Handbook of Research and Policy in Art Education** Elliot W. Eisner, Michael D.
