The Magic of NLP Demystified Byron Lewis, 2012-06-20 Byron A Lewis MA is the director of the Meta Training Institute a Northwest Educational and Consulting firm specialising in the techniques of Neuro Linguistic Programming Frank Pucelik PhD is widely recognised as one of the world's finest trainers in interpersonal communication and success strategies The Origins Of Neuro Linguistic Programming John Grinder, 2013-05-09 The Origins of NLP brings together the recollections and thoughts of some of the main protagonists from the very early days of NLP In 1971 Richard Bandler and Frank Pucelik were students at Kresege College at the University of California Santa Cruz They had a strong mutual interest in Gestalt Therapy Frank because of his traumatic time in Vietnam and because he had been working with some disaffected and drug addicted kids and Richard because he had been working with Science and Behavior Books on transcribing and editing Fritz Perls seminal work The Gestalt Approach and Eyewitness to Therapy They started a local Gestalt group and ran 2 3 sessions a week collaborating and experimenting with the language of therapy They started achieving some brilliant results but were having problems transferring their skills to others and so Richard invited one of their college professors John Grinder to observe what they were doing in order that he would hopefully be able to deconstruct what they were doing that was so effective John was a professor of Linguistics and was instantly impressed with the work that they were doing He was able to add more structure and in due course the three of them formalised what is now known as the Meta Model NLP or Meta as it was known then was born The Dynamic Leader Shelley Flett, 2022-01-01 Are you a business owner who as your business has grown has had to learn to lead a team Or have you been promoted to a leadership role and thought What now You haven t received any training there s little support and you re finding few places to go for advice so you decide to just follow your own leader only to realise they are not the type of leader you want to be By following the proven nine stage model outlined in this book which Shelley Flett has created and tested you will be well on your way to finding your own dynamic leadership style By focusing on relationships respect and results you will succeed as a new leader The Dynamic Leader may not be the only thing you ll need to become an amazing leader but it s a great place to Value Management Mr Adam | Davies, Mr Roger H Davies, 2012-09-28 Change programmes in both private and start public sectors have a poor record of delivering their intended value The reasons given most often for their failure include lack of executive support or buy in from key users loose requirements definition weak programme management and plain wishful thinking They rarely include technical limitations Value Management puts forward the view that the true problem lies in failing to understand the causal links between the intended stakeholder outcomes and the actual programme outputs Repeating the pattern of failure can be avoided by asking two questions Before implementation what capabilities must a change programme deliver when and in what order so as to cause intended value against a defined purpose with speed and certainty During and after implementation what minor adjustments and or major shifts are needed to be certain that the

programme remains on purpose and on value and two answers to be given Target time and align change programmes to deliver maximum intended value to stakeholders the baseline business case track and respond to changes during and beyond implementation to ensure that the programme actually delivers or exceeds intended value value realisation The authors show how by asking and answering these questions direction and delivery of any programme can be clarified and greater economic The Neurophysics of Human Behavior Mark E.
