The Interpretation of The Meaning of The Holy Quran Volume 2 - Surah Al-Baqarah verse 72 to 130 Nasoha Bin Saabin, I have written many books and articles on various topics but since 2013 I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah I have completed the whole Quran on 29th October 2020 with 84 books I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English Currently there is a great misunderstanding about Islam among Muslims and non Muslims globally The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non Muslims The wrong actions of the Muslims have led to many miseries and wars among Muslims The wrong actions of Muslims have also led to many wars and clashes between Muslims and non Muslims In order to avoid miseries wars and clashes from taking place between the whole mankind in the whole world the whole mankind in the whole world need to understand the true teaching of Islam There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world English For this very reason I have written the interpretation of the Holy Quran in English Prof Nasoha Bin Saabin

Images of Children in Byzantium Cecily Hennessy,2017-03-02 This book covers a subject that has never previously been addressed and yet it is both a fascinating and a provocative one the representation of children in Byzantium The visual material is extensive intriguing and striking and the historical context is crucially important to our understanding of Byzantine culture social history and artistic output The imagery explored is drawn from the fourth to the fifteenth centuries and encompasses media from manuscripts to mosaics and enamel Part of the allure of this subject is that people do not associate childhood with Byzantium Ernst Gombrich commented who could find it easy after a visit to Ravenna and its solemn mosaics to think of noisy children in Byzantium However in Byzantium patrons of art were often young such as emperors who acceded to the throne as teenagers and makers of art sculptors mosaicists painters often began their training at an early age How did this affect the creation promotion and production of art The study questions the definitions and perceptions of childhood focusing on topics such as the family saintly children and those associated with imperial power Cecily Hennessy demonstrates that children are featured often in visual imagery and in key locations indicating that they played a central role in Byzantine life something which has previously been overlooked or ignored In tackling this new subject she reveals important aspects of childhood youth and by extension adulthood in Byzantine society and raises issues that are also applicable to the present and to other historical contexts
