

Kindred: Mirror Image

A silhouette of a person's head and shoulders in profile, facing right, looking out over a body of water at sunset. The sun is a bright yellow-orange orb in the center of the horizon, casting a shimmering reflection on the water. The sky is filled with soft, orange and yellow clouds. The overall mood is contemplative and serene.

Kindred Mirror Image A Kindred Short Story:

Life in Flip Flops Sonja B. DeChene, 2012-05-31 Cool You're reading the back of my book which means the front caught your eye Now you're just about ready to open it up and well since I still have your attention So this is my first book a lifetime in the making And you won't find any fancy reviews by important people written here What you will see is my invitation especially for you Between the covers is an eclectic collection of true stories extracted from my life and imagination It's not a how-to book or a dramatic tale of triumph It's simply thoughts about everyday life that most anyone can relate to yet spend little time putting much thought into This compilation of short stories won't change your life But I'm pretty sure it will warm your heart make you smile and make you think you might even shed a tear or two And it just might inspire you to tweak your outlook on life just a little bit That my friend is up to you So steal a few moments for yourself and curl up with *Life in Flip Flops* And if a bon fire with smores breaks out halfway through then you're right where you need to be Enjoy A

Threshold of the Image Andrea Pinotti, 2025-09-16 An exploration of the impact of immersive experiences on visual practices from cave painting to virtual reality In this groundbreaking book philosopher Andrea Pinotti explores the impacts of a desire that has motivated human beings since prehistory the desire to enter an image He proposes that over the centuries every culture has tried to realize this wish with whatever visual resources were available at the time and today's virtual reality technologies seem close to fulfilling it The image in VR becomes an immersive 360 degree environment and the frame that used to confine it to a world apart disappears Even the physical medium in which the image materializes appears to be transparent However Pinotti insists that once the border between the real world and the iconic world becomes permeable we are faced with a troubling two-way passage we penetrate the world of the image but the image floods into our world The desire for being encompassed by the image he shows is accompanied by fear of this overflowing In its analysis of this desire
