

TACTICAL KEY LOADER

KIK-11 TKL

FEATURES

- > Single-button key fill
- > Lightweight, small form factor
- > Easy-to-use

The KIK-11 Tactical Key Loader (TKL) is a small, lightweight key loader replacement for legacy key fill devices (KYK-13, CY2-10, etc.). This next-generation key fill device includes the crucial features and functionalities of KYK-13 legacy devices, plus support for modern key fill protocols and key types used by advanced tactical communications equipment.

While comparable key loaders resemble the bulky size and slow power-on of notebook computers, the small form factor KIK-11 features ergonomic design, fast instant-on, and true one-button key fill, making it ready to connect and load keys in seconds. Its intuitive interface is easy to learn and will be familiar to users with experience using legacy key fill devices.

The Cryptographic Ignition Key (CIK) is required to power on the KIK-11, securing the unit against unauthorized operation. The user simply inserts the CIK, connects the KIK-11 to the device being filled, and presses the appropriate slot button on the KIK-11 to fill the End Crypto Unit (ECU). During key loading, the KIK-11's front-panel display shows the selected key's title, slot number, and profile information.

The CIK also determines which functions are available with user functions limited to key-receive, key-load and supervisor functions that include KIK-11 configuration and programming. Harris' proven Cryptographic Modernization (CM) compliant Sierra II™ ASIC cryptographic module provides security services to the KIK-11 platform.

With storage for up to 40 keys and 12 associated slots, the software-programmable KIK-11 is backwards-compatible with EXOTS Tier 2 and 3 devices. It also supports SINGARS loadset data and modern key lengths and key types.

The rugged design stands up to the most demanding of tactical missions. Relying on only three "AA" commercial off-the-shelf (COTS) batteries for nearly 40 hours of operational battery life, the KIK-11 is designed for forward-deployed warfighters and special operations personnel, but is also ideal for a variety of battlefield scenarios.
