Killer Company James Hardie Exposed:

Killer Company: James Hardie Exposed Matt Peacock, Killer Company Matthew Peacock, 2012 ABC journalist Matt Peacock's painstaking research involving newly discovered documents and interviews with over a hundred former Hardie employees and other key figures reveals in stark detail how the company subverted the institutions designed to protect ordinary citizens and how a dedicated group of unionists lawyers and activists finally exposed Hardie's subterfuge. Peacock first warned the public about the dangers of Hardie's asbestos empire in an award-winning radio series in 1977. He has followed the tragic trail for more than 30 years from the company's factories where workers had asbestos snowball fights to the mine where Aboriginal children played in the tailings and into thousands of houses where Hardie's asbestos now threatens home renovators not just from their fibro walls and ceilings but from the dust that still lurks under their carpets.

C. Lo, 2016-01-14 There is currently much debate over corporate social responsibility on whether business companies should look beyond shareholder primacy and profit maximisation to act for the benefit of others It is generally agreed however even amongst advocates of shareholder primacy that profit maximisation should only be achieved within the framework of external laws regulating the conduct of individuals and companies generally If the objectives of such external laws are not to be defeated then it is important for controllers of companies to ensure corporate compliance with the law Despite this controversies have arisen where corporate enterprises may have improperly flouted or evaded liabilities under the law Against this background it is argued in this book that it is necessary to ensure that responsible persons are accountable under the law so as to promote compliance with legal regulations in the corporate context Individuals or entities behind the company who are responsible for wrongful conduct should be held liable under the

law whether it be tort law or statutory regulation Some counter that the corporate law principles of limited liability and separate entity have the primacy to effectively shield those behind the company from at least certain types of liability However it is undesirable for corporate insiders to hide behind the company to avoid tortious or statutory liabilities This book adopts a theory of interactive corrective justice that is applied in the corporate context to justify the imposition of civil liability on responsible directors shareholders and other corporate participants under Anglo Australian law In light of this theoretical framework possibilities of rectifying deficiencies in the law through judicial development of existing legal principles are examined To the extent that appropriate directions in the law cannot be achieved via judicial development of the law the book also investigates possibilities of statutory reform **Asbestos House** Gideon Haigh, 2006 Reconstructed from hundreds of hours of interviews and thousands of pages of documentation this reference focuses on one of Australia's oldest and proudest corporations Hardie retelling the story of one of the worst industrial poisons of the 20th century asbestos This compelling narrative relates the frantic financial engineering in 2001 during which Hardie cut adrift its liabilities to sufferers of asbestos related disease the public and political odium that followed and the extraordinary deal that resulted
