Hearings United States. Congress. House. Committee on Ways and Means, 1953
Aging , 1972 **Michigan Education Journal** , 1968 South Bronx Rising Jill Jonnes, 2022-10-04 Thirty five years after this landmark of urban history first captured the rise fall and rebirth of a once thriving New York City borough ravaged in the 1970s and 80s by disinvestment and fires then heroically revived and rebuilt in the 1990s by community activists Jill Jonnes returns to chronicle the ongoing revival of the South Bronx Though now globally renowned as the birthplace of hip hop the South Bronx remains America s poorest urban congressional district In this new edition we meet the present generation of activists who are transforming their communities with the arts and greening notably the restoration of the Bronx River For better or worse real estate investors have noticed setting off new gentrification struggles Looking into the Seeds of Time Y. S. Brenner, 2021-12-16 This stunning refreshing work combines the history of economics and the practice of modern development It is predicated on Brenner s view that there is no individual freedom without economic security and that such security depends upon progress in both the natural and social sciences Social institutions determine the pace and direction of technological advancement and scientific and technological achievements determine which forms of social reorganization are possible and which are illusory As all living is action and living implies choices any theory of development must start with the person Economic laws obtain only in relation to specific forms of social existence Advanced societies are technically capable of providing for basic needs but are not yet convinced of their ability to do so Modern life still reflects the fears of a society still trying to escape the anxieties demons and ghosts of a long dark era of unemployment and starvation The problem of development is the contradiction between technological potentials and cultural inheritances

Looking into the Seeds of Time was originally written with the belief that the growing mastery of nature by humanity would curb egoistic impulses and replace competitive with cooperative goals While the same spirit pervades this new edition the work reveals how political as well as economic processes make the goals of prosperity harder to achieve The work reveals a rare insight into the mechanisms of the marketplace and how they can be examined in a comparative historical context across nations as different as the United States Great Britain and Japan and from the Reformation to the modern era of bourgeois consolidation This is institutional economics at its very best Alabama: A History Virginia Van Der Veer Hamilton,1984-05-17 Surveys the outstanding events and portrays the outstanding personalities in the history of the Yellowhammer State noting Alabama s role in the nation s history **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1968 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December **Hearings, Reports and Prints of the Senate Special Committee on Aging** United States. Congress. Senate. Special Committee on Aging,1969 **Remnants of Nation** Roxanne Rimstead,2001-01-01 Treating poverty not simply as a theme in literature but as a force that in fact shapes the texts themselves Rimstead adopts the notion of a common culture to include ordinary voices in national culture in this case the national culture of Canada
