**The Malfunction of US Education Policy** Richard P. Phelps, 2023-03-20 A 2023 Choice Reviews Outstanding Academic Title

*The Malfunction of US Education Policy* Elite Misinformation Disinformation and Selfishness

biased and inefficient information dissemination that has degraded US education research and policy since the year 2001

when a series of unfortunate disruptions began

first the No Child Left Behind NCLB Act and federal imposition of an idiosyncratic and ineffectual testing program

second the big bang reorganization of the US education testing industry from a stable cooperative oligopoly run by psychometricians to a commercially competitive free for all with more opportunist and customer pleasing ambitions

and third the Common Core standards which mandated homogenous lower content standards onto the still required NCLB testing structure

Billions from the federal government and wealthy foundations have transformed many once independent national education organizations into cargo cult dependents and promoters of the new order intolerant of divergent points of view

The research and policy

brain trust responsible comprised an alliance of convenience among two citation cartels of establishment and reform scholars and politicians and an astonishingly cooperative and unskeptical group of journalists. It succeeded in focusing attention on their work while diverting attention away from a much larger universe of others' work by ignoring, dismissing or demeaning it that included a century's worth of mostly experimental scholarship in the fields of psychology and program evaluation.

Referencing the latest standards, this new edition combines fastener materials, explanation of how fasteners are made and how fasteners fit together, supplementing the basic design coverage included in previous versions of this authoritative text. **Introduction to the Design and Behavior of Bolted Joints: Non-Gasketed Joints** will be of interest to engineers involved in the design and testing of bolted joints.

**The Business of Education** Joel Spring, John Eric Frankson, Corie A. McCallum, Diane Price Banks, 2017-07-06 The Business of Education: a comprehensive view of how education policy is made in the US and in some cases globally, analyzes and critiques the influence of educational policy networks in a wide range of contexts and from a variety of perspectives including testing, college preparation, juvenile detention centers, special education, the arts, teacher evaluation systems, education of undocumented immigrants, college faculty preparation and financial aid. A network chart in most chapters illustrates how the major political actors, mainly private philanthropic foundations, for-profit companies, government officials and politicians involved in the network are linked. Joel Spring, internationally renowned scholar and analyst of educational policy, situates and frames the network studies in an introduction discussing general theories of education policy networks.

**African American Children's Poetry** Wynn William Yarbrough, 2025-01-24 This work examines African American children's poetry through a variety of lenses: jazz poetics, the blues, nonsense verse, gender and working-class studies. African American children's poetry reveals legacies of segregation, the Great Migration, north and racial and gender reckonings in U.S. history. Works by Gwendolyn Brooks, Langston Hughes, Lauryn Hill and Wynton Marsalis reveal warnings, scenes of empowerment and moments of remembrance for children and young adults. This is the first academic book to investigate African American children's poetry thematically across two centuries, including hip-hop lyrics and jazz poetry.
