Leadership Theories and Case Studies Garry Wade McGiboney, 2018-07-27 Effective leadership does not occur by chance Leaders must be trained and groomed for the daunting responsibility of leading organizations Research shows that half of the people currently in leadership positions will fail Why they fail and what can be done to prevent failure are the main subjects of this book It shows that effective leadership is possible and illustrates why and how based on research and case studies from an epidemiological perspective The epidemiological word determinant is used frequently and is a word that no other book on leadership uses Epidemiologists work from two basic principles namely that all diseases have determinants and that diseases do not occur randomly In other words there are always causes for diseases and patterns that describe how diseases spread Effective and ineffective leadership always have determinants that are not randomly distributed the impacts are uniformly and deeply spread throughout an organization Like the epidemiologists this book not only identifies leadership determinants but also provides research based antidotes at the end of each chapter along with a summary of the most salient points in the chapter This book offers examples of leadership and governance from the non profit sector businesses public and private education higher education and other organizations highlighting over 50 case studies to illustrate concepts about leadership **BRICS: building education for the future; priorities for national development and international cooperation** Leclercq, François, 2014-09-22

How to Raise an Adult Julie Lythcott-Haims, 2015-06-09 New York Times Bestseller A provocative manifesto that exposes the harms of helicopter parenting and sets forth an alternate philosophy for raising preteens and teens to self sufficient young adulthood Julie Lythcott Haims is a national treasure A must read for every parent who senses that there is a healthier and saner way to raise our children Madeline Levine author of the New York Times bestsellers *The Price of Privilege* and *Teach Your Children Well* In *How to Raise an Adult* Julie Lythcott Haims draws on research on conversations with admissions officers educators and employers and on her own insights as a mother and as a student dean to highlight the ways in which overparenting harms children their stressed out parents and society at large While empathizing with the parental hopes and especially fears that lead to overhelping Lythcott Haims offers practical alternative strategies that underline the importance of allowing children to make their own mistakes and develop the resilience resourcefulness and inner determination necessary for success Relevant to parents of toddlers as well as of twentysomethings and of special value to parents of teens this book is a rallying cry for those who wish to ensure that the next generation can take charge of their own lives with competence and confidence For parents who want to foster hearty

self reliance instead of hollow self esteem How to Raise an Adult is the right book at the right time Daniel H Pink author of the New York Times bestsellers Drive and A Whole New Mind **The Creation of Israeli Arabic** Y. Mendel,2015-12-04 This book sheds light on the ways in which the on going Israeli Arab conflict has shaped Arabic language instruction Due to its interdisciplinary nature it will be of great interest to academics and researchers in security and middle eastern studies as well as those focused on language and linguistics **Assessing Academic Literacy in a Multilingual Society** Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *The Governance of Credit Rating Agencies* Andrea Miglione, The global crisis revealed that credit rating agencies CRAs are capable of bringing about potential distortions in the financial sector thereby resulting in a reduction in market confidence which in turn influences negotiations and expectations CRAs need to be held accountable for lack of transparency and inaccurate ratings however the existing regulatory framework does not secure adequate investor protection This book provides a new and important contribution to research in the area at a crucial time in the debate around financial regulation and investment regimes **If Einstein Ran the Schools** Thomas Armstrong Ph.D.,2019-10-11 Many world class thinkers and creators have been concerned about the state of education in the United States Discover their thoughts on how children really learn and what teachers must do to optimally tap children s latent abilities During the last three decades education reformers have pushed standardized testing and policies like No Child Left Behind and Common Core to improve test scores and proficiency in basic skills However during this period that author Thomas Armstrong calls the miseducation of America a number of troubling trends have surfaced including a decrease in creative thinking scores among children in kindergarten through third grade Rather than focus on what s wrong with the education system that has produced these outcomes Armstrong lays out what creative thinkers know about how children should be educated In an extended thought experiment he asks what would happen if we turned the reins of educational policy over not to the politicians and educational bureaucrats but to eminent thinkers and creators like Albert Einstein Pablo Picasso Martin Luther King Jr Rachel Carson Doris Lessing Jane Goodall and other seminal culture builders What might they say about the best way to educate a child If Einstein Ran the Schools suggests that the answers to this intriguing question should guide future

The Character of American Democracy Jill Long Thompson,2020-09-15 This illuminating examination of democratic ethics is a resource for Americans who are seeking ways to secure our democracy and our future as a nation Congressman John Lewis Ethical leadership steeped in integrity and fairness matters The future of our nation and our world depends upon the quality of America's character In this absorbing look at our contemporary society and government former Indiana congresswoman Jill Long Thompson persuasively argues that we all have a meaningful role to play in shaping America's character and future The citizenry as well as their elected officials are responsible for protecting fairness of participation and integrity in elections as well as in the adoption and execution of laws In this troubling time when the public is losing trust and confidence in our government Jill Long Thompson shows us a bipartisan way forward

Popular Music, Cultural Politics and Music Education in China Wai-Chung Ho,2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China's strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education Ho presents music and music education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland

Stigma and the Shaping of the Pornography Industry Georgina Voss,2015-05-15 The idea of pornography is often employed to invoke titillation anger and disgust *Stigma and the Shaping of the Pornography Industry* explores the effects that this stigmatized identity has on the pornography industry itself From the video era to the emergence of the internet to trade shows white collar workers technological innovation and industry wide characteristics this book looks beyond content production to explore how stigma has shaped the structures practices norms and boundaries of the wider sector By drawing on concepts such as dirty work core stigmatized industries and outlaw innovation this book offers rich insights into the ways

in which stigma is socially constructed and managed and the deep structural effects that it has on the industry **Rare Earth Frontiers** Julie M. Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation

Common Sense Questions about Tests Gerard Giordano, 2016-03-07 Parents had questions about the tests their children took at school They considered them to be common sense questions They posed them to the businesspeople publishers and politicians who championed tests They also posed them to the school administrators teachers and union leaders who criticized them This book examines the questions the parents posed the answers they elicited and the changes they prodded *Life by Algorithms* Catherine Besteman, Hugh Gusterson, 2019-05-23 Essays on the downsides dysfunctions and dangers of automated decision making An excellent survey of the algorithmically managed life Choice The phone systems that businesses use to screen calls The link between student standardized test scores and public schools access to resources The algorithms that regulate patient diagnoses and reimbursements to doctors The impenetrable corporate bureaucracy that can drive customers in need of help up the wall or drive them to suicide The storage sorting and analysis of massive amounts of information have enabled the automation of decision making at an unprecedented level Meanwhile computers have offered a model of cognition that increasingly shapes our approach to the world The proliferation of robo-processes is the result as editors Catherine Besteman and Hugh Gusterson observe in this rich and wide ranging volume which features contributions from a distinguished cast of scholars in anthropology communications international studies and political science Though automatic processes are designed to be engines of rational systems the stories in *Life by Algorithms* reveal how they can in fact produce absurd inflexible or even dangerous outcomes Joining the call for algorithmic transparency the contributors bring exceptional sensitivity to everyday sociality into their critique to better understand how the perils of modern technology affect finance medicine education housing the workplace food production public space and emotions not as separate problems but as linked manifestations of a deeper defect in the fundamental ordering of our society
