

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Paige C. Pullen,Michael J. Kennedy,2018-10-04 Of the many issues facing special education and general education today it is
difficult to imagine one more important or timely than response to intervention RTI Almost overnight RTI has become
standard practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is
almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great
potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this
handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi
tiered systems of support MTSS in both special education and general education Although the two terms are currently used
interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts
RTI and MTSS and describing each one s unique role in both general and special education In addition the authors
recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific
