

Comparing and Ordering Fractions

3rd–5th Grade

Objective

CCSS Math/Number and Operations-Fractions: 4.NF.2

- Extend understanding of fraction equivalence and ordering.
 2. Compare two fractions with different numerators and different denominators (e.g., by creating common denominators or numerators, or by comparing to a benchmark fraction such as $\frac{1}{2}$). Recognize that comparisons are valid only when the two fractions refer to the same whole. Record the results of comparisons with symbols $>$, $=$ or $<$, and justify the conclusions (e.g., by using a visual fraction model).

Materials Needed

- *Pizza Fractions* by Jerry Pallotta
- Chalkboard, whiteboard or document camera
- Fraction Pizza templates
- Comparing Fractions practice page and answer sheet
- Comparing Fractions activity card and recording sheet
- Comparing Fractions spinners and answer key
- Paper clips
- Pencils
- Pennies or other small objects (to use as game markers)

Preparation

Before teaching this lesson, you may want to introduce students to the concept of equivalent fractions. (Please visit http://www.lakeshorelearning.com/general_content/free_resources/teachers_corner/lesson_plans/equivalentFraction.jsp for a sample lesson.)

Introduction

Read aloud *Pizza Fractions* by Jerry Pallotta to give students a visual representation of fractions.

Procedure

1. Explain to students that they are going to compare and order fractions.
2. Print out and display the first two Fraction Pizza templates on the chalkboard, whiteboard or document camera.
3. Point out that the two pizzas are the same size, but the first pizza is cut into four slices and the second pizza is cut into eight slices. Ask students to identify which pizza has larger slices.
4. Say, "Imagine you are very hungry and someone offers you one slice of pizza. Would you rather have one slice of this pizza that is cut into fourths?" (Circle one of the slices on the first pizza and write " $\frac{1}{4}$ " beneath the pizza.) Then ask, "Or would you rather have one slice of this pizza that is cut into eighths?" (Circle one of the slices on the second pizza and write " $\frac{1}{8}$ " beneath the pizza.)
