El funcionalismo en la teoría lingüística: la Gramática del Papel y la Referencia Ricardo Mairal Usón, Lilián Graciela Guerrero Valenzuela, González Vergara González V., 2012-03-14 Este libro ofrece una introducción clara y rigurosa al modelo lingüístico de la Gramática del Papel y la Referencia una teoría que se inscribe en la visión funcionalista de los fenómenos lingüísticos pues define el lenguaje como un sistema de acción comunicativa de carácter social Se distingue de

otros modelos funcionales en que aunque considera que el análisis de las funciones comunicativas de las expresiones lingüísticas cumple un papel esencial no hace suyo el postulado de que toda la estructura gramatical puede reducirse al discurso sino que rescata el sentido estructuralista tradicional del término El análisis de las estructuras gramaticales se encuentra determinado de manera esencial por consideraciones semánticas pragmáticas y cognitivas y por lo tanto la sintaxis no es un componente autónomo En su estructura interna la Gramática del Papel y la Referencia postula la existencia de tres componentes en el sistema de representación lingüística una representación semántica que analiza el significado de las expresiones lingüísticas una representación de la estructura sintáctica de las oraciones basada en distinciones que se plantean como universalmente válidas y una representación de la estructura informativa del enunciado **Curiosidades**
