Half Taking Ball Going:

How We Beat the All Blacks John Reason, 2013-08-01 It remains a unique achievement In 1971 the British Lions went to New Zealand and beat the All Blacks in a test series on their own soil With gritty never say die forwards like Ian McLaughlan and Mervyn Davies and brilliant backs like Barry John Gerald Davies and David Duckham and under the inspired management of one of the finest coaches of all time Carwyn James the Lions won the first match lost the second and then came back to clinch the series in the third But this unique rugby feat also spawned a unique book for after the touring party had returned to the UK the Lions captain John Dawes had the idea of organising an International Players Conference at which he and some of the key members of his victorious team would discuss the latest trends in rugby and offer the fruits of their experience in how to beat the greatest rugby team in the world These talks and lectures were subsequently edited into a book The Lions Speak by the Daily Telegraph's Rugby Correspondent John Reason In the years since it was first published it has assumed cult status as one of the best and most insightful books ever published about the game of rugby It stands as both a fascinating period piece about a sport that was played very differently in those days when Bob Hiller would toe punt penalties and conversions from a lovingly crafted mud tee and scrum halves like Gareth Edwards would launch his back line from the scrum with a flamboyant diving pass and a brilliant and witty deconstruction of the game's strategy and psychology by some of its most greatest and most intelligent practitioners that is as relevant and valuable today as it ever was Who better to talk about kicking and controlling the game than Barry John or Mike Gibson on the role of the centre or Carwyn James himself to reveal the secrets of his coaching methods that brought about the 1971 Lions historic victory and British rugby's finest hour

Sphere Michael Crichton, 2012-05-14 From the author of Jurassic Park Timeline and Congo comes a psychological thriller about a group of scientists who investigate a spaceship discovered on the ocean floor In the middle of the South Pacific a thousand feet below the surface a huge vessel is unearthed Rushed to the scene is a team of American scientists who descend together into the depths to investigate the astonishing discovery What they find defies their imaginations and mocks their attempts at logical explanation It is a spaceship but apparently it is undamaged by its fall from the sky And most startling it appears to be at least three hundred years old containing a terrifying and destructive force that must be controlled at all costs

The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces, 1893 Physical Education Methods for Elementary Teachers Katherine T. Thomas, Amelia M. Lee, Jerry R. Thomas, 2008 The authors show non specialists how to develop a realistic and workable approach to teaching physical education The book makes physical education worthwhile practical and fun for students and teachers The text provides the reader with a basic physical education curriculum and suggestions for how to implement this
