Premodern Japan Charlotte von Verschuer, Wendy Cobcroft, 2016-02-22 The majority of studies on the agricultural history of Japan have focused on the public administration of land and production and rice the principal source of revenue has received the most attention However while this cereal has clearly played a decisive role in the public economy of the Japanese State it has not had a predominant place in agricultural production Far from confining its scope to a study of rice growing for tax purposes this volume looks at the subsistence economy in the plant kingdom as a whole This book examines the history of agriculture in premodern Japan from the 8th to the 17th century dealing with the history of agricultural techniques and food supply of rice wheat millet and other grains Drawing extensively on material from history literature archaeology ethnography and botany it analyses each of the farming operations from sowing to harvesting and the customs pertaining to consumption It also challenges the widespread theory that rice cultivation has been the basis of Japaneseness for two millennia and the foundation of Japanese civilization by focusing on the biodiversity and polycultural traditions of Japan Further it will play a role in the current dialogue on the future of sustainable agricultural production from the viewpoints of ecology biodiversity dietary culture and food security throughout the world as traditional techniques such as crop rotation are explored in connection with the safeguarding of the minerals in the soil Surveying agricultural techniques across the centuries and highlighting the dietary diversity of Japan this book will appeal to students and scholars of Japanese history the history of science and technology medieval history cultural anthropology and agriculture **Rising from the Flames** Samuel L. Leiter, 2009-01-01 This is the first book to describe the way in which the traditional and modern forms of Japanese theater responded to Japan's defeat in World War II It includes sixteen essays by thirteen specialists demonstrating the triumphs and

tribulations of Japanese theater during the Allied Occupation 1945 1952 *From Situated Selves to the Self* Hisako Omori, 2020-05-01 Argues for an important transformation in the construction of the self among Japanese converts to Roman Catholicism In many parts of the world the Roman Catholic Church in the twenty first century finds itself mired in scandal and its future prospects appear fairly dim in the eyes of many social critics In *From Situated Selves to the Self* however Hisako Omori finds a radically different situation with jubilant Roman Catholics in an unexpected place Tokyo Japan Based on twelve months of ethnographic fieldwork the author provides a culturally sensitive account of the transformative processes associated with becoming Catholic in Tokyo Her ethnographically rich narrative reveals the ways in which Christianity as a cultural force can effect changes in one's personhood by juxtaposing two models of the self one based on conventional Japanese social ideals and the other on Roman Catholic teachings Omori takes readers to a living room ochanoma in a parish a Catholic bar in a nightclub area Catholic charismatic meetings and busy intersections in Tokyo In so doing she traces subtle yet emerging changes in women's agentive power that accompany the processes of deepening faith *From Situated Selves to the Self* gives us a rare glimpse into Christianity as a cultural force in an East Asian context where Confucianism has historically been the dominant ethical framework **The Tale of Genji** Michael Emmerich, 2013 Michael Emmerich thoroughly revises the conventional narrative of the early modern and modern history of *The Tale of Genji* Exploring iterations of the work from the 1830s to the 1950s he demonstrates how translations and the global circulation of discourse they inspired turned *The Tale of Genji* into a widely read classic reframing our understanding of its significance and influence and of the processes that have canonized the text Emmerich begins with an analysis of the lavishly produced best seller Nise Murasaki Inaka Genji A Fraudulent Murasaki's Bumpkin Genji 1829 1842 an adaptation of Genji written and designed by Ryutei Tanehiko with pictures by the great print artist Utagawa Kunisada He argues that this work introduced Genji to a popular Japanese audience and created a new mode of reading He then considers movable type editions of Inaka Genji from 1888 to 1928 connecting trends in print technology and publishing to larger developments in national literature and showing how the one time best seller became obsolete The study subsequently traces Genji's reemergence as a classic on a global scale following its acceptance into the canon of world literature before the text gained popularity in Japan It concludes with Genji's becoming a national classic during World War II and reviews an important postwar challenge to reading the work after it attained this status Through his sustained critique Emmerich upends scholarship on Japan's preeminent classic while remaking theories of world literature continuity and community **Union Catalogue of Asian Publications, 1965-1970**, 1971 Subject Catalog, 1981 Library of Congress, 1981 National Union Catalog, 1981, 1982 Subject Catalog Library of Congress, 1981 日本国日本, Kelly's Directory of Merchants, Manufacturers and Shippers, 1930
