Talent Jacqueline Davies, Jeremy Kourdi, 2010-08-23 Key themes in the book are 1 The need to reevaluate how people contribute and create value in today's economy it is about knowledge innovation and relationships today rather than executive potential tomorrow 2 Challenging the conventional wisdom that talent refers to a special few rather than the vital many Perhaps we don't have enough because we keep looking in the wrong places and doing the wrong things 3 Conditions facing organizations are tough and competitive and markets are turbulent To withstand this we need to build talented organizations and talented individuals 4 Interdependence between people within and across organizations is critical The way that each individual relies on each other and how talent is realised through social and team ties makes a decisive defining difference 5 Individuals control when and how their potential is shared with The idea that an organization can manage talent and potential is an outdated conceit 6 The nature of work itself matters hugely The extent to which it is stimulating and

engaging and how people can make the connection with what they do and the wider difference it makes is vital 7 The way talent is generated is affected by the whole ecology of an organization its sense of purpose rituals the behaviour of its leaders how it hires and how it fires people all influence the way talent is generated
