Head Start To College Planning Barrons Head Start To College Planning:

Head Start to College Planning Susan C. Chiarolanzio, 2004-08-01 Parents of growing children soon realize that it is never too early to start planning for a child's academic success. The middle school years are typically the time when both parents and students begin thinking about college. Even so, this book's author advises parents not to become too college focused too early in their child's life. Important decisions should be made based on the child's needs and interests, emphasizing the value of middle school years as each child's personal experience rather than as a stepping stone toward higher education. Following these introductory sections, the author goes on to explain the many kinds of college options available for students having different interests and aptitudes. She then discusses the search and application process in detail. Succeeding chapters focus on pre-college academic planning, developing a child's study skills, coping with standardized tests such as the SAT and ACT, understanding the importance of nonacademic activities in a student's life, and employing methods to compensate for a student's learning differences. A final chapter offers advice on covering college costs. Here is a valuable guide that helps parents separate myth from reality as they prepare their son or daughter for the college experience.

Barron's Head Start to College Planning Susan Chiarolanzio, 2004 **Profiles of American Colleges -- 2008** Barron's Educational Series, 2008-07-01 Up to date facts and figures on enrollments, tuition and fees, academic programs, campus environment, available financial aid, and much more make the 28th edition of Profiles of American Colleges America's most authoritative data source for college bound high school students, their parents, and high school guidance counselors. More than 1,650 accredited four-year colleges are profiled. An interactive CD-ROM enclosed with the directory guides students to specific schools when they enter details describing their personal academic plans and aptitudes. In addition to the above cited information, each college profile gives details on Admission requirements, Library and computer facilities, Admissions procedures for freshmen, Campus safety and security, Thumbnail descriptions of faculty, Requirements for a degree, Athletic facilities, Extracurricular activities, E-mail addresses, College fax numbers and web sites, Admissions Contacts, and much more. Schools are rated according to Barron's well known competitiveness scale from Noncompetitive to Most Competitive. Unlike some other publications, Barron's refrains from the unreliable practice of ranking colleges on a first through last basis. The book's tinted pages section presents a quick reference Index of College Majors that lists all available major study programs at each school. Also profiled are many excellent colleges in Canada and several other countries, as well as brief profiles of religious colleges and American colleges based in foreign countries. **Profiles of American Colleges with CD-ROM** Barron's Educational Series, 2006-07-01 Up to date information on enrollments, tuition and fees, academic programs, campus environment, available financial aid, and much more combine to make 27th edition of Profiles of American Colleges America's most authoritative source for information on colleges and universities.
