## **Head Case My Brain And Other Wonders:**

Head Case Cole Cohen, 2015-05-19 A memoir about one woman's struggle to make her way and set up a life after doctors discover a hole the size of a plum in her brain      Head Case Cole Cohen, 2015-05-19 A spirited wry and utterly original memoir about one woman's struggle to make her way and set up a life after doctors discover a hole the size of a lemon in her brain The summer before she was set to head out of state to pursue her MFA twenty six year old Cole Cohen submitted herself to a battery of tests For as long as she could remember she'd struggled with a series of learning disabilities that made it nearly impossible to judge time and space standing at a cross walk she couldn't tell you if an oncoming car would arrive in ten seconds or thirty if you asked her to let you know when ten minutes had passed she might notify you in a minute or an hour These symptoms had always kept her from getting a driver's license which she wanted to have for grad school Instead of leaving the doctor's office with permission to drive she left with a shocking diagnosis doctors had found a large hole in her brain responsible for her life long struggles Because there aren't established tools to rely on in the wake of this unprecedented and mysterious diagnosis Cole and her doctors and family create them and discover firsthand how best to navigate the unique world that Cole lives in Told without an ounce of self pity and plenty of charm and wit Head Case is ultimately a story of triumph as we watch this passionate loveable and unsinkable young woman chart a path for herself

**How Much Brain Do We Really Need?** Jenny Barnett, Alexis Willett, 2017-12-07 Your brain is shrinking Does it matter Rethinking the Brain challenges us to think differently Rather than just concentrating on the many wonderful things the brain can do this entertaining insight into its complexities and contradictions asks whether in fact we can live satisfactorily without some of it The bad news is that our brains start to shrink from our mid thirties But the good news is that we still seem to generally muddle along and our brain is able to adapt in extraordinary ways when things going wrong Alexis Willett and Jennifer Barnett shed light on what the human brain can do in both optimal and suboptimal conditions and consider what it can manage without Through fascinating facts and figures case studies and hypothetical scenarios expert interviews and scientific principles they take us on a journey from the ancient mists of time to the far reaches of the future via different species and lands Is brain training the key to healthy ageing Do women really experience baby brain Is our brain at its evolutionary peak or do we have an even more brilliant future to look forward to We discover the answers to these questions and more      **Body Language** G. Couser, 2019-04-17 As much as we may like to evade them illness and disability inescapably attend human embodiment we are all vulnerable subjects So it might seem natural and inevitable that the most universal most democratic form of literature autobiography should address these common features of human experience Yet for the most part autobiographical writing expressive of illness and disability remained quite uncommon until the second half of the twentieth century when it flourished concurrently with successive civil rights movements Women's liberation with its signature manifesto Our Bodies Ourselves supported the breast cancer narrative the gay rights movement encouraged AIDS

narrative in response to a deadly epidemic and the disability rights movement stimulated a surge in narratives of various disabilities Conversely the narratives helped to advance the respective rights movements Such writing then has been representative in two senses of the term aesthetic mimetic and political acting on behalf of It has done and continues to do important cultural work This volume explores this phenomenon using the latest critical theories and from the perspectives of patients and creative writers as well as academics It attends to the problematic intersection of trauma and disability it encompasses graphic narratives essays and diaries as well as full length memoirs and it examines the ethical as well as the aesthetic dimensions of narrative This book was originally published as a special issue of Life Writing

**Transformed States** Martin Halliwell, 2024-11-15 Honourable Mention British Association of American Studies Book Award Transformed States offers a timely history of the politics ethics medical applications and cultural representations of the biotechnological revolution from the Human Genome Project to the COVID 19 pandemic In exploring the entanglements of mental and physical health in an age of biotechnology it views the post Cold War 1990s as the horizon for understanding the intersection of technoscience and culture in the early twenty first century The book draws on original research spanning the presidencies of George H W Bush and Joe Biden to show how the politics of science and technology shape the medical uses of biotechnology Some of these technologies reveal fierce ideological conflicts in the arenas of cloning reproduction artificial intelligence longevity gender affirmation vaccination and environmental health Interweaving politics and culture the book illustrates how these health issues are reflected in and challenged by literary and cinematic texts from Oryx and Crake to Annihilation and from Gattaca to Avatar By assessing the complex relationship between federal politics and the biomedical industry Transformed States develops an ecological approach to public health that moves beyond tensions between state governance and private enterprise To that end Martin Halliwell analyzes thirty years that radically transformed American science medicine and policy positioning biotechnology in dialogue with fears and fantasies about an emerging future in which health is ever more contested Along with the two earlier books Therapeutic Revolutions 2013 and Voices of Mental Health 2017 Transformed States is the final volume of a landmark cultural and intellectual history of mental health in the United States journeying from the combat zones of World War II to the global emergency of COVID 19

**McClure's Magazine ...**, 1893 **Over the Purple Hills** Caroline M. Churchill, 1881 Caroline M Nichols Churchill b 1833 first came to California from Chicago in 1870 Over the purple hills 1881 continues her tales of California begun in Little Sheaves 1874 beginning with an 1874 rail trip from San Francisco to Bartlett s Springs Stockton Napa and Lake Tahoe She also details undated visits to Yosemite Valley and Salt Lake City and a rail journey from Visalia to Monterey Vallejo and Placerville Throughout she shows a sharp eye for matters of interest to women and tourists **The Manuscripts of His Grace the Duke of Portland** Great Britain.
