Third Reich Collectibles Chris William, 2015-10-05 The rise and fall of Germany's Third Reich is one of the most studied investigated and collected episodes of military history. A reign of terror that rose to near world domination during the 1930s and early 1940s, Adolph Hitler's Germany continues to fascinate generations of scholars and students of history alike. The Third Reich's insatiable drumbeat of pageantry and propaganda produced countless uniforms, insignia, medals, flags, daggers, swords, and headgear comprising one of the most desired categories in all of military collectibles to study, understand, and own. Groundbreaking in scope and execution, *Third Reich Collectibles* features more than 1,300 color images with descriptions and values for Uniforms, Helmets, Headgear, Flags, Badges, Membership pins, Patches, Armbands, Firearms, Blades, Equipment, Paper IDs, Signage, and more associated with the military and paramilitary groups of the Third Reich. Throughout the book, you'll also find historical background information and period photographs capturing everyday Nazi Germany.
