The Bible is not one book It is a compilation of sixty six books or writings And even though these were written by some forty different authors over a period of 1500 years there is an integrated message that runs throughout the Bible Unfortunately we often get our exposure to the Bible piecemeal For the church goer each week a small sliver of the biblical text is reviewed without a mechanism that puts all of these pieces into an integrated whole What we read or hear can seem disjointed How is the book of Leviticus connected to the book of Hebrews How is John s reason for writing his Gospel related to Psalm 2 How do we connect the covenant ceremony of Genesis 15 with the cross much less understand that ceremony to begin with Why is the book of Ruth included as part of the Bible What does it have to do with anything Or better yet why do we have the book of Esther where God is not mentioned at all What makes each of these important How are they related or are they In short how is God s story God s revelation unified That s where *A Forty Day Study of the Biblical Story* comes in It looks at how each of the elements of the Bible contribute to an integrated whole And the lens used to see Scripture in a unified way is Jesus Everything we look at is done in the context to how it relates to Jesus and how it contributes to the Bible s unified message We learn why an obscure Galilean carpenter has become the center of all of history      **Leaves of Healing** ,1929      **The biblical illustrator: or, Anecdotes [&c.] on the verses of the Bible, by J.S. Exell** Joseph Samuel Exell,1886      *Rophe: A Study of Medicine in the Bible* Allan G. Cogle M.D.,2023-02-09 Old Testament and New Testament views of medicine and physicians were in many ways opposite According to ancient interpretations of the Book of Deuteronomy all misfortune whether disease calamity etc was a punishment from God for the commitment of some sin If illness was produced by God then healing could only come directly from God without the intervention of physicians and many times only through the priest Many ancient theologians felt that physicians acted against God s will in trying to aid in healing In fact one writer in the Talmud says in effect that the best of physicians was destined to go to hell and the medical profession was counted among the seven professions who would not share in heaven In spite of a rather low assessment of doctors the ancient Jews were a healthy lot in large part due to dietary and sanitation laws Contrast this with New Testament teaching Indeed Luke was the beloved physician and the writer of one of the Gospels Jesus said It is not those who are healthy who need a physician but those who are sick In this book we explore biblical teachings about medicine in both Old and New Testaments Also we will study dietary and health laws that have bearing on today s life and lifestyle      **NKJV, Faithlife Illustrated Study Bible, Hardcover, Red Letter Edition** John D. **Oromo Indigenous Religion and Oromo Christianity** Ujulu Tesso Benti, 2018-05-31 The early non Oromo writers have distorted the history of the Oromo Without scientific research they were speaking of the so called Oromo migration of the 16th century Against the unscientific thesis of the early scholars this work confirmed the Oromo to be not only the indigenous African peoples but also belong to the Cushitic Africans who invented the first world civilization Their egalitarian and holistic culture the gadaa system is part of the ancient Cushitic civilization It is the base for modern democratic system of governance The root word of gadaa is originated from Ka the creator God of the ancient religion of the Cushitic Africans From this very name Ka originated the Oromo word Waaqa which also means creator of everything This shows that the Oromo are among the first nations who came up with the idea of monotheism Therefore this work disqualifies the missionary assumptions describing the Oromo Indigenous Religion OIR as Satanism and its religious experts the Qaalluus as witchdoctors or sorcerers This dissertation discovered many identical similar partial similar and few differing elements between the Oromo Indigenous Religion OIR and Oromo Christianity OC Also the study identified many Oromo cultural elements that are compatible to Christianity therefore must be adopted by the Oromo Christianity According modern scholarship God revealed himself in every human culture and religion is part of human culture Therefore no religion can claim to be the only true religion Based on this principle this dissertation calls all leaders of religious institutions in Oromia to change their attitude develop culture of tolerance conduct constructive religious dialogue create the atmosphere of peaceful coexistence of all religions and establish sustainable peace that serves humanity
