The Healing Arts Peter Elmer, 2004-03-09 The book will appeal to students, teachers, health workers and general readers who wish to develop a critical awareness of medicine in the past. The essays are complemented by a selection of primary and secondary readings in the companion volume *Health, Disease and Society in Europe 1500-1800: A Source Book*.

BOOK JACKET ***Concepts of Chinese Science and Traditional Healing Arts*** Peng Yoke Ho, F. Peter Lisowski, 1993 This brief discourse is an introduction to the historical development of medicine in China whose influence on Korea, Japan and Southeast Asia was profound and even reached far west into the Islamic world. The authors wish to make the interested reader aware of China's rich contribution to the world growth of the medical sciences. Too often the view has been taken that the history of medicine began with the discoveries of the Greeks and those ancient nations from whom they learnt. The authors want to redress this view and acquaint readers with a glimpse of the concepts and history of Chinese medicine and hope that they will feel encouraged to delve deeper.

The Arts in Health Care Charles Kaye, Tony Blee, 1997 Adopting a practical approach, this book aims to help staff in health care to introduce and develop the use of arts in their own spheres of influence. Above all, it will help professionals to improve the quality of life of those in care.

Managing Arts Programs in Healthcare Patricia Dewey Lambert, 2015-10-05 A growing body of research demonstrates how the arts, including literary, performing and visual arts as well as architecture and design, can greatly enhance the experience of healthcare, contributing to improved health outcomes, a better patient experience and lower healthcare costs. This unique book provides an overview of what the arts in healthcare can achieve and how to implement the arts in the most effective manner. Exploring possibilities for innovative program design and implementation, from healing gardens through public performances to bedside activities, the text draws on examples from a wide range of arts. The book then goes on to look at how programs can be aimed at specific populations and fields such as children, palliative care and caregivers. This comprehensive book is an invaluable reference for all those studying or engaged in creating, designing, managing and evaluating arts in healthcare programs and initiatives.
