Hear For Life Dr Joes Guide To Your Childs Hearing Loss:

Hear for Life Joseph B. Roberson (Jr), Joseph B Roberson, Jr MD, Sheri Byrne-Haber, Caitlin Roberson, 2013-03-13 Black White Version If you have picked up this book it is likely that your child or someone you know was recently diagnosed with hearing loss Without a doubt what you face is serious However there is good news Hearing loss is treatable and treatment may start at birth If you want your child to hear and speak and live in a hearing world then this book is for you It is extremely important to act quickly once the diagnosis of hearing impairment is made or suspected in a child The human hearing system develops rapidly from before birth and during the first few years of life If critical periods of development are missed no amount of intervention can correct those losses The age at which the treatment began is the single most important factor in predicting successful treatment of congenital hearing impairment in children LetThemHear org **The Delineator** R.
