Mexico and the United States Lee Stacy, 2002-10 Examines the history and culture of Mexico and its relations with its neighbors to the north and east from the Spanish Conquest to the current presidency of Vicente Fox **Austin Hispanic Directory 1984** Martha P. Cotera, 1984 **The Metamorphosis of Leadership in a Democratic Mexico** Roderic Ai Camp, 2010-11-04 *The Metamorphosis of Leadership in a Democratic Mexico* is a broad analysis of Mexico's changing leadership over the past eight decades stretching from its pre democratic era 1935 1988 to its democratic transition 1988 2000 to its democratic period 2000 the present In it Roderic Camp one of the most distinguished scholars of Mexican politics

seeks to answer two questions 1 how has Mexican political leadership evolved since the 1930s and in what ways beyond ideology has the shift from a semi authoritarian one party system to a democratic electoral system altered the country s leadership and 2 which aspects of Mexican leadership have been most affected by this shift in political models and when and why did the changes in leadership occur Rather than viewing Mexico s current government as a true democracy Camp sees it as undergoing a process of consolidation under which the competitive electoral process has resulted in a system of governing institutions supported by the majority of citizens and significant strides toward plurality Accordingly he looks at the relationship between the decentralization of political power and the changing characteristics experiences and paths to power of national leaders The book which represents four decades of Camp s work is based upon a detailed study of 3000 politicians from the 1930s through the present incorporating regional media accounts and Camp s own interviews with Mexican presidents cabinet members assistant secretaries senators governors and party presidents **U.S. Department of**

Transportation Federal Motor Carrier Safety Administration Register ,2000 **The War Has Brought Peace to Mexico** Halbert Jones,2014-04-15 Although the battlefields of World War II lay thousands of miles from Mexican shores the conflict had a significant influence on the country s political development Though the war years in Mexico have attracted less attention than other periods this book shows how the crisis atmosphere of the early 1940s played an important part in the consolidation of the post revolutionary regime Through its management of Mexico s role in the war including the sensitive question of military participation the administration of Manuel Avila Camacho was able to insist upon a policy of national unity bringing together disparate factions and making open opposition to the government difficult World War II also made possible a reshaping of the country s foreign relations allowing Mexico to repair ties that had been strained in the 1930s and to claim a leading place among Latin American nations in the postwar world The period was also marked by an unprecedented degree of cooperation with the United States in support of the Allied cause culminating in the deployment of a Mexican fighter squadron in the Pacific a symbolic direct contribution to the war effort **The Texas Outlook** ,1926
