Mapping National Anxieties Thailand's Southern Conflict:

Mapping National Anxieties Duncan McCargo, 2012 Based on first hand research in the world's third most intensive conflict zone after Iraq and Afghanistan this book examines the debates around reconciliation citizenship and identity and the prospects for some form of autonomy for the Thai South **Reporting Thailand's Southern Conflict** Phansasiri

Kularb, 2016-02-12 Since 2004 Thailand's southern border provinces have been plagued by violence There are a wide array of explanations for this violence from the revival of Malay nationalist movements and the influence from the global trend of radical Islam to the power play among the regional underground crime syndicates politicians and state authorities The disparate interpretations signal the dynamic and complex discursive contention of this damaging and enduring conflict and this book looks at how this is played out in the Thai media and with what possible consequences In analysing the southern conflict coverage the book presents the deficiencies in news coverage as produced by four news organisations of different natures across a seven year review period and discusses the professional practices that hinder journalism from serving as a fair arena for healthy and rational democratic debates Based on in depth interviews with news workers it argues that Thai journalism is not always monolithic and static as shown in the discursive shifts in news content the variations of journalistic practices and news workers disparate stances on the conflict The book goes on to highlight the less immediately apparent difficulties of political conflict reporting such as the subtle patterns of intimidation and media manipulation as well as the challenges of countering socially prevailing hegemonic beliefs in Thai society Exploring the political contingencies and socio cultural influences at play this book provides an in depth study of journalism's role in politics in Thailand and is of interest to students and scholars of Southeast Asian Politics Media Studies and Peace and Conflict Studies **Autonomy and Armed**

Separatism in South and Southeast Asia Michelle Ann Miller, 2012 Armed separatist insurgencies have created a real dilemma for many national governments of how much freedom to grant aggrieved minorities without releasing territorial sovereignty over the nation state This book examines different approaches that have been taken by seven states in South and Southeast Asia to try and resolve this dilemma through various offers of autonomy Providing new insights into the conditions under which autonomy arrangements exacerbate or alleviate the problem of armed separatism this comprehensive book includes in depth analysis of the circumstances that lead men and women to take up arms in an effort to remove themselves from the state's borders by creating their own independent polity **In Search of Justice in Thailand's Deep South**

Soraya Jamjuree, 2022-09-20 Since 2004 the violent conflict between Thai Buddhists and Malay Muslims has caused more than 7 500 deaths and 13 000 injuries in the southern border provinces of Thailand This will be the first collection published in English to give voice to those who have rebounded from these profound personal tragedies to demand justice and peace The ethnic and religious separatist insurgency in the southern provinces of Thailand is complex Ninety to ninety five percent of Thai citizens are Buddhists In the southernmost provinces however Muslims are in the majority yet they are governed by

the Buddhist Thai capital in the north In 2006 and 2014 the Thai government went through separate coups resulting in differing policies to address this problem in the south including a National Culture Act to promote Thai ness throughout the country In the south this has resulted in a repressive and corrupt police force and military raids on Muslim villages provoking the burning of schools and other symbols of Thai government bombings and even the killing of teachers and monks The narratives collected here primarily from women testify that although the violence has been generated from both sides of the Buddhist Muslim divide the actions undertaken by armed forces of the Thai Buddhist state including repressive violence and torture have served as a catalyst for increased Muslim insurgency These contributions reveal the fundamental problem of how a minority people can fully belong within a state that has insisted on religious cultural and linguistic homogenization

Ethnicity and Politics in Southeast Asia Amy H. Liu, Jacob I.

Ricks, 2022-05-05 What explains the treatment of ethnic minorities in Southeast Asia This Element conceptually disaggregates ethnicity into multiple constituent markers specifically language religion and phenotype By focusing on the interaction between these three ethnic markers Liu and Ricks explore how overlap between these markers can affect whether a minority integrates within a broader ethnic identity successfully extracts accommodation as unique group or engages in a contentious and potentially violent relationship with the hegemon The argument is tested through six case studies 1 ethnic Lao in Thailand integration 2 ethnic Chinese in Thailand integration 3 ethnic Chinese in Malaysia accommodation 4 ethnic Malays in Singapore accommodation 5 ethnic Malays in Thailand contention and 6 ethnic Chinese in Indonesia contention

Energy, Governance and Security in Thailand and Myanmar (Burma) Adam Simpson, 2016-04-29

Across the world states are seeking out new and secure supplies of energy but this search is manifesting itself most visibly in Asia where rapid industrialisation in states such as China and India is fomenting a frantic scramble for energy resources Due to entrenched societal inequities and widespread authoritarian governance however the pursuit of national energy security through transnational energy projects has resulted in devastating impacts on the human and environmental security of local populations These effects are particularly evident in both Thailand and Myanmar Burma which located at the crossroads of Asia are increasingly engaged in the cross border energy trade Based on extensive fieldwork and theoretical analysis this ground breaking book proposes a new critical approach to energy and environmental security and explores the important role that both local and transnational environmental movements are playing in the absence of effective and democratic governments in providing activist environmental governance for energy projects throughout the region By comparing the nature of this activism under two very different political regimes it delivers crucial theoretical insights with both academic and policy implications for the sustainable and equitable development of the South's natural resources

Thailand: Deadly

Destination John Stapleton, 2014-11-17 The daily robbing bashing drugging extortion and murder of foreign tourists on Thai soil along with numerous scandals involving unsafe facilities and well established scams has led to frequent predictions that Thailand's multi billion dollar tourist industry will self destruct Instead tourist numbers more than doubled in the decade to 2014 The world might not have come to the hometowns of the many visitors fascinated by Thailand but it certainly came to the Land of Smiles While the Thai media is heavily censored and bad news stories about tourists suppressed nonetheless

there is more than enough evidence to demonstrate that something has gone seriously awry with the nation's tourist industry. In 2014 just as in the years preceding it there were train bus ferry speedboat motorbike and car accidents murders knifings unexplained deaths numerous suicides diving accidents robberies gone wrong anonymous bodies washing up on the shores and a string of alcohol and drug related incidents. Thailand had a dying king and serious succession problems weak democratic institutions an economy slipping into recession faced issues of corruption across many of its key services and was host to international crime syndicates awash with despised foreigners and drifting perilously towards civil war. Tourists choose one destination over another for a number of reasons most of which Thailand scores highly on. But on the core issue of tourist safety Thailand scores very badly indeed.

Ghosts of the Past in Southern Thailand Anthony Reid, Barbara Watson Andaya, Geoff Wade, Azyumardi Azra, Numan Hayimasa, Christopher Joll, Francis R. Bradley, Philip King, Dennis Walker, Kobkua Suwannathat-Pian, Iik A. Mansurnoor, Duncan McCargo, 2013-01-01. At the heart of the on going armed conflict in southern Thailand is a fundamental disagreement about the history of relations between the Patani Malays and the Thai kingdom. While the Thai royalist nationalist version of history regards Patani as part of that kingdom since time immemorial Patani Malay nationalists look back to a golden age when the Sultanate of Patani was an independent prosperous trading state and a renowned center for Islamic education and scholarship in Southeast Asia a time before it was defeated broken up and brought under the control of the Thai state. While still influential in recent years these diametrically opposed views of the past have begun to make way for more nuanced and varied interpretations. Patani scholars intellectuals and students now explore their history more freely and confidently than in the past while the once rigid Thai nationalist narrative is open to more pluralistic interpretations. There is growing interaction and dialogue between historians writing in Thai Malay and English and engagement with sources and scholarship in other languages including Chinese and Arabic. In The Ghosts of the Past in Southern Thailand 13 scholars who have worked on this sensitive region evaluate the current state of current historical writing about the Patani Malays of southern Thailand. The essays in this book demonstrate that an understanding of the conflict must take into account the historical dimensions of relations between Patani and the Thai kingdom and the ongoing influence of these perceptions on Thai state officials militants and the local population.

Asia's Trouble Spots A. S. Bhalla, 2019-08-06. The art of successful negotiations over protracted conflicts presupposes a political commitment to peace and a willingness to compromise which are sorely lacking in the current disorderly world. Part of the blame for this lies in weak and ineffective national and global leadership. This book's sharp focus on the role of leadership at different levels national government rebel and Western regional government mediators as well as that of the UN and non governmental players in settling intra state disputes is a unique feature which sets it apart from others. Much of the existing literature does not adequately discuss the role of the above actors in developing countries. Asia's Trouble Spots is a serious attempt to fill this gap. The seven country studies in Asia Myanmar Indonesia Philippines Thailand Sri Lanka India and China discuss inter

alia how peace negotiations between national political and rebel leaders have unfolded The role of state sponsored cross border terrorists and non state spoilers such as Al Qaeda and ISIS is addressed in the context of geopolitical rivalry among regional and global powers A S Bhalla challenges the view that Western leaders can act as impartial mediators in intra state and inter state disputes With few exceptions their record has been dismal at best Their failure in conflict resolution arises from a loss of moral authority and credibility which follows the gradual erosion over the years of such liberal values as the rule of law and respect for democracy and human rights Commercial and strategic self interests have also tended to undermine peacebuilding efforts

Politics and the Rule of Law James Wise,2019-04-15 This introductory book on Thai politics and the rule of law explains why chronically unstable Thailand struggles to mediate and adjudicate its political disputes It focuses on the continuities between the pre 1932 and post 1932 periods Since the shift to constitutional monarchy in 1932 the power of the monarch and military has endured the legislature electorate and until recently judiciary have been comparatively powerless and constitutions and laws have been comparatively unimportant Historical continuities are also evident in the persistence of hierarchical thinking and ethno nationalism both of which have inhibited open debates about governance And the rule of law does not always apply owing to different principles underlying western and traditional Siamese law and the emergence of a distinctively Thai legal culture and consciousness Thailand s governance was re cast ambitiously in the 1890s 1932 and 1997 Since 1997 governing Thailand and developing Thailand s economy have become harder So political disputes have become more acute and the absence of a national consensus on dispute settlement mechanisms more obvious Until governance is again re cast Thailand s political instability and cycle of coups will continue **The Minority Muslim Experience in**

Myanmar's Buddhist Muslim Crisis is a probing search into the reasons and rationalizations behind the violence occurring in Myanmar especially the oppressive military campaigns waged against Rohingya Muslims by the army in 2016 and 2017. Over more than three years John Holt traveled around Myanmar engaging in sustained conversations with prominent and articulate participants and observers. What emerges from his peregrinations is a series of compelling portraits revealing both deep insights and entrenched misunderstandings. To understand the conflict Holt must first accurately capture the viewpoints of his different conversation partners who include Buddhists and Muslims, men and women, monks and laypeople, activists and scholars. Conversations range widely over issues such as the rise of Buddhist nationalism, the sometimes enigmatic and unexpected positions taken by Aung San Suu Kyi, use of the controversial term Rohingya, the impact of state-sponsored propaganda on the Burmese public, resistance to narratives emanating from international media, the United Nations and the international diplomatic community, the frustrations of local political leaders who have felt left out of the policy-making process in the Rakhine State and the constructive hopes and efforts still being made by forward-looking activists in Yangon. Three main perspectives emerge from the voices he listens to: those of Arakanese Buddhists who are native to Rakhine, once called Arakan, where much of the conflict has taken place; Burmese Buddhists or Barmars who make up the vast majority of Myanmar's population; and the Rohingya Muslims whose tragic story has been widely disseminated by the international media. What surfaces in conversation after conversation among all three groups is a narrative of siege: all see themselves as the aggrieved party and all recount a history of being under siege. John Holt gives voice to these different perspectives as an engaged and concerned participant, offering both a critical and empathetic account of Myanmar's tragic predicament. Readers follow the hopes and dismay of this seasoned scholar of Theravada Buddhism as he seeks his own understanding of the variously impassioned forces in play in this still unfolding drama.

It will be a valuable resource for policy analysis researchers and practitioners and as a comparison with other volumes in the International Library of Policy Analysis series.

State Terror, State Violence Bettina Koch, 2015-12-16. The volume critically discusses theoretical discourses and theoretically informed case studies on state violence and state terror. How do states justify their acts of violence? How are these justifications critiqued? Although legally state terrorism does not exist, some states nonetheless commit acts of violence that qualify as state terror as a social fact. In which cases and under what circumstances do illegitimate acts of violence qualify as state terrorism? Geographically, the volume covers cases and discourses from the Caucasus, South East and Central Asia, the Middle East and North America.
