Prison Land Brett Story, 2019-03-26 From broken window policing in Detroit to prison building in Appalachia exploring the expansion of the carceral state and its oppressive social relations into everyday life Prison Land offers a geographic excavation of the prison as a set of social relations including property work gender and race enacted across various landscapes of American life Prisons Brett Story shows are more than just buildings of incarceration bound to cycles of crime and punishment Instead she investigates the production of carceral power at a range of sites from buses to coalfields and from blighted cities to urban financial hubs to demonstrate how the organization of carceral space is ideologically and materially grounded in racial capitalism Story's critically acclaimed film *The Prison in Twelve Landscapes* is based on the same research that informs this book In both Story takes an expansive view of what constitutes contemporary carceral space interrogating the ways in which racial capitalism is reproduced and for which police technologies of containment and control are employed By framing the prison as a set of social relations Prison Land forces us to confront the production of new carceral forms that go well beyond the prison system In doing so it profoundly undermines both conventional ideas of prisons as logical responses to the problem of crime and attachment to punishment as the relevant measure of a transformed criminal justice system

Eco-Homes Doctor Jenny Pickerill, 2016-01-15 It is widely understood that good affordable eco housing needs to be at the heart of any attempt to mitigate or adapt to climate change This is the first book to comprehensively explore eco housing from a geographical social and political perspective It starts from the premise that we already know how to build good eco houses and we already have the technology to retrofit existing housing Despite this relatively few eco houses are being built Featuring over thirty case studies of eco housing in Britain Spain Thailand Argentina and the United States Eco Homes examines the ways in which radical changes to our houses such as making them more temporary using natural materials or relying on manual heating

and ventilation systems require changes in how we live As such it argues it is not lack of technology or political will that is holding us back from responding to climate change but deep rooted cultural and social understandings of our way of life and what we expect our houses to do for us *Feminist Geopolitics* Professor Deborah P Dixon,2015-12-28 In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space *Feminist Geopolitics* feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence *Feminist Geopolitics* Deborah P. Dixon,Sallie A. Marston,2016-09-17 Building on a trans disciplinary feminist project that foregrounds the bodies of those at the sharp end of various forms of international activity such as immigration development and warfare the chapters included in this book cover a variety of sites concerns and hopes These range from the fraught geopolitics of marriage and birth in Ladakh India to the fate of detained migrant children in the U S and from the human rights abuses of women and children in Uzbekistan to the body politics of aid workers in Afghanistan The collective aim is to expose the force relations that operate through and upon those bodies such that particular subjectivities are enhanced constrained and put to work and particular corporealities are violated exploited and often abandoned Oriented around issues of security population territory and nationalism these chapters expose the proliferating bodies of geopolitics not simply as the bearers of socially demarcated borders and boundaries but as vulnerable corporealities seeking to negotiate and transform the geopolitics they both animate and inhabit This book was originally published as a special issue of *Gender Place and Culture A Journal of Feminist Geography* **A Companion to Feminist Geography** Lise Nelson,Joni Seager,2025-07-28 A Companion to Feminist Geography captures the breadth and diversity of this vibrant and substantive field Shows how feminist geography has changed the landscape of geographical inquiry and knowledge since the 1970s Explores the diverse literatures that comprise feminist geography today Showcases cutting edge research by feminist geographers Charts emerging areas of scholarship such as the body and the nation Contributions from 50 leading international scholars in the field Each chapter can be read for its own distinctive contribution *Thresholds in Feminist Geography* John Paul Jones,Heidi J.
