**MARGHERITA SPILUTTINI. Archiv der Räume/ Archive of Spaces** ,2015 Interior Spaces Christian Schittich,2012-12-17 Space light and material from the meditative ambiance of a chapel or synagogue to the colourful organic forms of fashion boutiques the design of an interior space composed of lighting the surfaces textures and colours of materials finishing and features creates atmosphere and lends specific character The growing willingness on the part of designers in recent years to experiment with colours materials and spatial concepts is demonstrated in the range and diversity of international examples presented in this the third volume in the series In Detail All plans and drawings of interiors and furnishings have been carefully researched and drawn by the staff of DETAIL Three introductory essays by expert authors are followed by 28 exemplary case studies by such names as Alvaro Siza Future Systems Dominique Perrault and Herzog de Meuron **Thinking Color in Space** Kerstin Schultz,Hedwig Wiedemann-Tokarz,Eva Maria Herrmann,2018-12-03 The interaction between color and architecture determines our perception of space and defines the tectonic relationships The fascinating spatial potential of color and the multi layered dimensions of interpretation in the experience of color are design and communication means which however are often not fully used color oscillates between autonomy and functional purpose and should be understood as a distinct material that can be used as part of the design The book focuses both on the tangible aspects and design criteria of color and on its indeterminate nature and its experience value Using examples in art and architecture the spatial interdependency of color is illustrated as is its interaction with structure light and geometry **Energy Manual** Manfred Hegger,Matthias Fuchs,Thomas Stark,Martin Zeumer,2012-12-10 While the efficiency and sustainability offensive is in full swing in most sectors of the economy in the construction sector it is still in its very beginnings economically as well as ecologically However politicians and policymakers at the global European and national levels have begun to address this deficit and are seeking to correct it with legal requirements and laws like EnEV building certifications and competitions Following the proven model of earlier manuals in the series the Energy Manual presents a comprehensive look at the constructional parameters of energy efficiency and sustainability It offers an advance look at the legal regulations being planned by the EU and as a tool ready for immediate use by architects engineers and designers in their daily work it points the way toward the efficient and sustainable construction and operation of buildings With its focus on the entire lifecycle of a building it provides an integrated perspective a necessary prerequisite for sustainable economic management Beyond the Minimal Peter Allison,Adolf Krischanitz,Architectural Association (Great Britain),ARTEC (Firm),Pauhof (Firm),1998 Beyond the Minimal presents four of the most interesting practices in Austria today Artec Adolf Krischanitz PauHof and Riegler Riewe Certain qualities of formal reduction are evident in the work of all four architects but none of them equates minimalism with negation or absence in the sense that the term has been used in writings on architecture They have been brought together because of the affinities in their approach their common interest in

materials structure and the contribution of the building to the larger environment Each practice is represented by a survey of around a dozen projects including houses schools offices and exhibition pavilions The survey is complemented by texts that link the work to broader developments in European particularly Swiss architecture Architecture and Movement Peter Blundell Jones, Mark Meagher, 2014-12-17 The experience of movement of moving through buildings cities landscapes and in everyday life is the only involvement most individuals have with the built environment on a daily basis User experience is so often neglected in architectural study and practice Architecture and Movement tackles this complex subject for the first time providing the wide range of perspectives needed to tackle this multi disciplinary topic Organised in four parts it documents the architect s planner s or designer s approach looking at how they have sought to deploy buildings as a promenade and how they have thought or written about it concentrates on the individual s experience and particularly on the primacy of walking which engages other senses besides the visual engages with society and social rituals and how mutually we define the spaces through which we move both by laying out routes and boundaries and by celebrating thresholds analyses how we deal with promenades which are not experienced directly but via other mediums such as computer models drawings film and television The wide selection of contributors include academics and practitioners and discuss cases from across the US UK Europe and Asia By mingling such disparate voices in a carefully curated selection of chapters the book enlarges the understanding of architects architectural students designers and planners alerting them to the many and complex issues involved in the experience of movement **Spatial Strategies for Interior Design** Ian Higgins, 2015-03-30 This inspirational and practical guide to organizing and planning interior spaces is packed with photographs diagrams models case studies and step by step instructions It provides useful information on finding ways to start the design process analyzing existing buildings using planning diagrams developing three dimensional spatial compositions designing in section how to communicate your design ideas and much more **Vom Nutzen der Architekturfotografie / Architectural Photography and its Uses** Angelika Fitz, Gabriele Lenz, 2015-10-16 Welchen Status hat die Architekturfotografie heute Einerseits sorgen die Bilder f r die massenhafte mediale Verbreitung von Bauwerken Andererseits schaffen die Fotografinnen und Fotografen durch ihre Haltung ihre Interessen und ihren Stil sehr individuelle Bilder dieser gebauten Wirklichkeit Sie erz hlen eigene Geschichten der Geb ude entscheiden ob sie diese belebt oder unbelebt in Szene setzen inszeniert oder naturalistisch mit oder ohne Kontext als Neubau oder im Gebrauch Welche Auswirkung hat dieser fotografische Blick auf die Vermittlung der Geb ude und ihrer Architekten Viele Architekten verbindet eine langj hrige Zusammenarbeit mit einzelnen Fotografen Wie stark pr gen m gliche Bilder schon den Entwurf Welche Bilder schaffen Aufmerksamkeit welche neue Blickwinkel Gerade in Zeiten der Bilderflut in der sich Fotos und Renderings scheinbar kaum mehr unterscheiden lassen holt die Publikation den Beitrag der Architekturfotografie vor den Vorhang und erm glicht gleichzeitig einen Blick hinter die Kulissen In acht bildreichen Kapiteln werden die Beziehungen zwischen Architektur und Fotografie einem Sichtwechsel
