Trust-Based Observations Craig Randall, 2020-07-30 The results are in observations are not improving teaching and learning Pertinently the Gates Foundation s recently completed effort to improve student outcomes through enhancing the teacher evaluation process failed to achieve substantive improvement The way observations are currently designed serve as an obstacle to

teacher risk taking Teachers fear negative evaluations when their pedagogy is rated and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built Trust Based Observations Maximizing Teaching and Learning Growth is a schema changing evaluation model that understands people perform at their best when they feel safe and supported It begins with twelve 20 minute observations per week followed by collegial conversations driven by reflective questions sharing observed teaching strengths and the building of safe and trusting relationships with teachers Add the elimination of rating pedagogical skills and replace it with rating mindset and teachers trust When teachers fully embrace risk taking and innovation it leads to remarkable teaching transformations and improved student learning

Literature teaching remains central to the teaching of English around the world This edited text brings together expert global figures under the banner of the International Federation for the Teaching of English IFTE The book captures a state of the art snapshot of leading trends in current literature teaching as well as detailing predicted trends for the future The expert scholar and leading teacher contributors coming from a wide range of countries with fascinatingly diverse approaches to literature teaching cover a range of central and fundamental topics literature and diversity digital literatures pedagogy and reader response mother tongues the business of reading publishers adolescent fiction and censorship assessing responses to literature the changing definitions of literature and multimodal texts The collection reviews the consistently important place of literature in the education of young people and provides international evidence of its enduring value and

contribution to education resisting the functionalist and narrowly nationalist perspectives of misguided government authorities International Perspectives on the Teaching of Literature in Schools will be of value to researchers PhD students literature scholars practitioners teacher educators teachers and all those in the extensive academic community interested in English and literacy around the world

In the Best Interest of Students Kelly Gallagher, 2023-10-10 In his new book *In the Best Interest of Students Staying True to What Works in the ELA Classroom* teacher and author Kelly Gallagher notes that there are real strengths in the Common Core standards and there are significant weaknesses as well He takes the long view reminding us that standards come and go but good teaching remains grounded in proven practices that sharpen students literacy skills Instead of blindly adhering to the latest standards movement Gallagher suggests Increasing the amount of reading and writing students are doing while giving students more choice around those activities Balancing rigorous high quality literature and non fiction works with student selected titles Encouraging readers to deepen their comprehension by moving beyond the four corners of the text Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres Using modeling to enrich students writing skills in the prewriting drafting and revision stages Resisting the de emphasis of narrative and imaginative reading and writing Amid the frenzy of trying to teach to a new set of standards Kelly Gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question What is in the best interest of our students
