Sustainable Leadership Capacity Alan M. Blankstein, Paul D. Houston, Robert W. Cole, 2009-05-05 Bringing together a powerful group of leading educational thinkers including Michael Fullan, Dennis Sparks, Linda Lambert, and Dean Fink, this volume examines how to sustain improvement through shared leadership. *Roadmap to the California High School Exit Exam* Princeton Review (Firm), 2004-08 *Resources in Education*, 2001 *Comprehending Test Manuals* Ann Silverlake, 2016-09-13 Your students will get valuable practice in interpreting actual excerpts from published test manuals. Each of the 39 exercises begins with a guideline that helps students review the measurement concepts they will need in order to complete the exercise. Background notes on each exercise describe the purpose of the test from which the excerpt was drawn. Students answer questions that require them to locate and interpret important points in the excerpt. The excerpts are largely unabridged so that students practice interpreting material as it is actually presented by test makers. The skills they learn with this book can be easily transferred to other test manuals they may be using in the future. Students have an ethical responsibility to be thoroughly familiar with the technical characteristics of the tests they will use. This book prepares them for this responsibility. All major topics are covered, including validity, reliability, standard error of measurement, norm group composition, derived scores, scales to detect faking, item analysis, cultural bias. The excerpts are drawn from tests such as Wechsler Intelligence Scale for Children, Peabody Picture Vocabulary Test, 16PF, Stanford-Binet Intelligence Scale, MMPI, Beck Depression Inventory, Stanford Achievement Test Series, KeyMath, and many others.
