Grade 12 Mathematics P1 June 2013:

Caught in the Act Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in *Caught in the Act* draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers **Mathematics**

Geometric Methods in PDE's Giovanna Citti,Maria Manfredini,Daniele Morbidelli,Sergio Polidoro,Francesco Uguzzoni,2015-10-31 The analysis of PDEs is a prominent discipline in mathematics research both in terms of its theoretical aspects and its relevance in applications In recent years the geometric properties of linear and nonlinear second order PDEs of elliptic and parabolic type have been extensively studied by many outstanding researchers

This book collects contributions from a selected group of leading experts who took part in the INdAM meeting Geometric methods in PDEs on the occasion of the 70th birthday of Ermanno Lanconelli They describe a number of new achievements and or the state of the art in their discipline of research providing readers an overview of recent progress and future research trends in PDEs In particular the volume collects significant results for sub elliptic equations potential theory and diffusion equations with an emphasis on comparing different methodologies and on their implications for theory and applications

Facilitating Children's Learning in the EYFS Ann Langston,2013-10-16 This book offers in depth insights into the revised Early Years Foundation Stage It provides a broad exploration of the changes in the EYFS and considers how the revised EYFS framework creates both a context for learning and the basis of a curriculum for children from birth to five in early years settings Focusing on practice it considers a range of issues arising from the revised EYFS including the rationale behind the new prime and specific areas of learning and the new key themes of school readiness and engaging parents Although the EYFS is a helpful framework for thinking about the relationship between the child the environment and learning

and teaching at the most significant time in a young child's life there is limited guidance on how the principles of the EYFS and the areas of learning and development can be put into practice. So if you're looking for further support and guidance on EYFS then this book is the book for you. Key features include Up to date coverage and insight into the revised EYFS Delightful and detailed case studies that help link theory and practice Tips for effective practice Ways to develop teaching and learning appropriately and sensitively in tune with the needs of babies and young children This is essential reading for students who are entering the early years profession as well as for more experienced practitioners. Ann Langston is one of the most insightful and refreshing writers on early years in the country. In this wonderful book her experience and passion for the EYFS and for learning and teaching that maximises the life chances of all children shines powerfully through. This is a tour de force offering scope and depth in an engaging and informing writing style peppered with fascinating real life vignettes. She begins with principles and ends with a vision for the future. A must have for all those who are privileged to work with young children. Dr Jonathan Doherty Head of Early Years Childhood Studies Faculty of Education Manchester Metropolitan University UK. The book provides insightful discussions and examples of practice for working with children birth five. Topical issues such as liaison with parents or school readiness give pertinent pointers for reflections. Dr Pat Beckley Bishop Grosseteste University UK.
